Take Out The Garbage.

Moldy tuna fish is nothing compared to the scum you'll face battling Lord Contaminous and his gang of environmental thugs on your NES™ and Game Boy®.

But you're Zen, a cosmic Ninja who's trying to prevent Earth from becoming a toxic wasteland.

On your NES, fight through 12 of the most hazardous levels you've ever seen, with horizontal, vertical and 3/4 view scrolling, plus fluid character movements that are hotter than a nuclear meltdown.

Then grab your Game Boy and Photon-Stick, and sweep through 4 treacherous spew zones until you reach Lord Contaminous, who is waiting to trash you at the final waste dump. No doubt, if you've got the guts, these will be your toughest chores ever!

WE'RE SORRY FOR BEING HONEST...

Last week I got my first experience at being on the road. I flew out for the Sega/Capcom press conference that unveiled the 'unsecret' Street Fighter 2 CE. After the conference I called up some of the companies in the San Francisco area to stop by for a visit. After the normal social greetings, the subject always got around to one common subject - game reviews. "Why did our game only get a 4?" was the standard question. Unfortunately, the answer was the same also. "The game only deserved a 4." While not the first time I had to answer for a low review, as phone calls come in every week about items published in our magazines, but telling it to people face to face is something different. It's not an easy thing to say to a product manager sitting across the table, who has probably hundreds, if not thousands of hours, and an equal amount of money invested in making a game. It is doubly tough because companies know that a low number review will mean smaller sales in the stores, not only from fewer players buying the games, but also from smaller initial purchases from the larger retail chains. We happen to be the major source of information for many of the video game buyers. They take our reviews into consideration when they make their nationwide purchases. It is quite a responsibility but in the goals that Steve set years ago, our reviews will always represent our honest, unbiased opinions of the games. This attitude also carries through all of the sections in the magazine. While other magazines may have a more upbeat attitude, and every game gets smiling faces, that type of facade is easy to see through and players start to ignore the ratings and quickly lose faith in the integrity of the magazine.

The same attitude goes towards the editorial. I could play it safe and just tell you what is in this issue. But that just repeats the table of contents. Rather you will see opinions about the industry here. Sure I get a lot of angry calls and letters from the companies and readers about anything negative that I wrote regarding a particular system or game, but these editorials aren't just random thoughts from someone new to the industry. I'm one of the old timers, having been to over 25 Consumer Electronics Shows, and dozens of Japanese and European trade shows. After a while it isn't too hard to be able to read between the lines to see what a company is really saying or doing.

Most importantly, many of the editorials represent what our readers are saying. I read each and every letter that you send in, and you, the readers do have a voice in the industry. If we get a thousand letters from Super NES players who are worried that the mighty Nintendo may take out the blood and fatalities in Mortal Kombat (as we have) that message will be passed on to the powers that be at Nintendo. It may not make a difference to the Big 'N', but we are here to get the message to them. So keep your letters coming in. It does make a difference! Don't just stop there, though. We are starting to offer more controversial subjects in our letters column. Let us know your opinion. And finally, take a moment to let us know what you think of the magazine. We are constantly evolving, and with your input, the biggest and best will stay on top.

When Charles dunks, get out of his way or get bounced like a basketball.

When Pippen goes to the hole, not even a double pump jam can stop his double pump jam.

Welcome to Jam City. Bulls vs. Blazers™ and the NBA® Playoffs.*

The updated version of the most popular basketball game ever. With

the complete rosters of all 16

1992 NBA playoff teams.

Updated stats. And the '92

East and West All-Star

squads.

Now you get even more ways to steel the show with our defensive playcalling. And the chance to build your own dream team from the NBA's finest.

Also available on SuperNES™

You also get new signature moves that'll make your head spin. Like Kersey's Gorilla Slam. Stockton's Behind-Your-Back Pass. And Owens's Alley-Oop Jam. It's the NBA's biggest guns. And all their shots.

You can even create your own dream team. Pick any player from the starting five of any playoff or All-Star squad. Then create a nightmare for the rest of the league.

Plus there's much tougher "D." Smother the ball with a full-court or half-court press. Of course, the tougher your "D," the more you'll tire and commit fouls.

The action starts at Round 1 with all 16 playoff teams. From there, it only gets

more intense. Establish your inside game. Hit a few treys. Play the substitution game. If you can stand tallest in the paint, the NBA title is yours.

Hardaway's unstoppable UTEP 2-step

The Mistrain's In-Your-Face Dunk always makes a huge splash

Kemp's Of-the-Glass Jam always smashes the competition

SF2 FOR GENESIS LIVES!

I have access to a computer bulletin board system and I have seen information that states Capcom will be bringing Street Fighter II: Champion Edition to the Sega Genesis. I own a Super NES and I feel that Capcom is abandoning me and all those who bought a copy of SF2 for the Super NES.

Mark Kurt
Louisville, KY

I was wondering if Street Fighter II is coming out on the Genesis? I just love the game. My parents won't let me have two 16-Bit systems, so I was just wondering if it will be available any time soon. Also, what will be the meg of this cart and what kind of six button controller will come out for it?

Daniel Dresser
Vacaville, CA

If Street Fighter is supposedly coming out on the Genesis, I have a few burning questions for you:

- (1) Could it ever be better than the current SF2 for the Super NES?
 - (2) Will it have the same awesome music as the Super NES?
 - (3) And even the most important question of all, will it be Champion Edition?
 - (4) Will the SF2 CE Turbo version then come out for the Super NES?
- Thanks guys, I know you have the answers.

Mike Morino
Ventura, CA

It finally happened! Street Fighter II CE is coming to the Sega Genesis in June!

(Ed. As you can see by the cover of this issue, SF2 CE is indeed coming to the Genesis this June. Capcom officially announced the game on March 10, 1992 and at that time they also stated that a new Genesis version of their 6 button SF2 stick would be coming out later this summer. Sega also plans to have their 6 button controller out this summer. The Genesis SF2 CE will be 16 meg and Capcom states that it would cost the same as the Super NES version. From what we saw of the game the sounds and music are excellent. The control is good and the characters move very fast on the screen. The reduced color palette is noticeable but not objectionable. There will be improvements over the Super NES version (do a perfect round and the game says 'perfect') and it appears to be an awesome cart. As to a Super NES version... Capcom U.S. won't say, but sources in Japan are already talking about a new Super Famcom SF2 cart. Whether it will be Turbo CE or just CE has not been confirmed yet.)

STARFOX 2 IS ON ITS WAY!

I bought the Japanese version of StarFox and I think it's the most incredible game I've ever seen! The action is mind-boggling and the sound effects are some of the best ever! I would love to personally congratulate Nintendo for their excellent work in designing the SFX Chip for the best game on the market! Any word on a sequel?

Raymond Jones
Beaver, OH

As soon as I saw your preview pictures of StarFox in the February issue, I just knew I had to run out to the store and purchase it as soon as it came out. Well, I did and I love it! The missions are all long and challenging and the music is way above average! My question to you is: how long has Nintendo been working on this elusive SFX Chip? It seems that StarFox has just grazed the surface of what this chip can do! Will there be a sequel or any other games like it in the future?

Erik Swanson
Minneapolis, MN

(Ed. Surprise! Nintendo didn't design the Super FX chip nor can they claim complete credit for StarFox! Both of these projects come from Argonaut Software in England! Check out our exclusive, revealing, Behind the Screens at Argonaut Software (page 110) for the REAL story that Nintendo will not talk about regarding the chip and game!)

FULDIGAN, HA!

I have just received your April issue, and the first thing that I did was to look for your April Fools joke. After finding the phony listing of the Jaguar games in the Software Calendar, I had to immediately rush this letter to you in hopes that I might win some kind of prize for being the first to respond.

Roger Bench
Orlando, FL

While I was reading my newly arrived April issue of EGM, I found your annual April Fools Joke. In your Software Calendar, a new section listing Jaguar games caught my eye especially since I know the system hasn't been released yet. Sure enough, the games were Virtua Pong 64, Adventure 199X and Yar's Revenge 2. I find this an excellent attack on Atari's vaporware promises about this system. While this prank is unlikely to cause international mania that your infamous Sheng Long trick resulted in last year, I suppose it is possible that I will soon see a bunch of clueless gamers lining up at Electronic's Boutique to buy Virtua Pong 64. Keep up the good work!

Teddy Schall
San Francisco, CA

I am pleased to say that I found the April Fools trick on page 37 in the April issue of your awesome mag. Virtua Pong 64, Adventure 199X and Yar's Revenge 2 definitely sound like Jaguar games. I'm sure you'll probably get letters from people that believed it. Do I get a game?

James Mohr
Brooklyn Park, MN

I must admit that you guys had me fooled! I never would have thought about looking in the Software Calendar for an April Fools trick. I thought for sure it would be the Psycho Letter or even Power Modeler from the Next Wave section. Keep up the awesome news in the best magazine around!

LETTER OF THE MONTH!

The Road Avenger ad with the alleged subliminal message?

WIN AN EGM T-SHIRT!

If you think you can be as loonie as Jon, we want to hear what you have to say. Just don't try to fool us with the phony "I'm serious" story. If you're weird enough, we'll send you an EGM T-Shirt that you can wear with pride at the funny farm!

"Dear EGM,
...Subliminal advertising focuses towards our subconscious minds. I am doing a research paper on how companies use this form of advertising to exploit the general public... I believe that Renovation uses it. It's the ad for Road Avenger. If you take a look at the open mouth, you'll see that aligned with the mouth are cracks in the windshield that form the letters S, E, and X... Companies make a lot of money doing this. Show this to everyone at the office and see what they think of this.

P.S. If you decide to publish this letter, PLEASE don't publish it as the Psycho Letter because I am dead serious about this." Jon P. Horsham, PA

Jon P. of Horsham, PA almost had us fooled into believing the research paper story until Scanman, our resident loonie, spent two weeks with the ad and found something that looked like the letters. Are we close Jon? No one else saw it. Anyway, anybody who spends hours looking at ads

for secret messages is as crazy as they come. Try getting a life Jon, there is a real world out there!

You might try playing video games too! But don't look at every screen for messages though.

You people are very cruel when it comes to April Fools pranks! Last year, the vapor-hero legend Sheng Long, now a vapor-system and games! When I saw that you added a new spot for the anticipated Jaguar game system in the Software Calendar, I almost cried! I was ready to blow another paycheck on this hot game system to add to my collection. However, my jaw dropped to the ground when I saw those heart breaking, phony, third-party software titles. I know, I should have been prepared. Hopefully, some day soon, the Atari 64-Bit Jaguar will claw its way to reality and take the world by surprise! It's the stuff dreams are made of.

(Ed. Looking at the postmarked date on your envelope James, Roger's entry beat yours by a week. And Roger, just how did you receive your issue so quickly? Are you one of the readers who bought the exclusive \$500 Gold Seal Subscription program where the mag is sent out Fed Ex from the printer? Anyway Roger, since you were the first to get us your letter about your findings, we will be sending you an entire set of extremely rare golden Street Fighter II coins, a copy of the Genesis version of SF2 Champion Edition, and a funky-cool In Your Face T-Shirt to proudly display to all your jealous friends. What else would you expect from the biggest and best video game magazine! Enjoy those prizes and stay tuned for next year's surprise!)

VIOLENCE IN SPORTS GAMES...

I'm writing in response to the article printed in the April issue of EGM written by Phil Mushnick of the NY Post. I believe it is sick that someone would go so far to proving his point. He couldn't possibly believe that Madden and the NHLPA condone violence. It's a video game for goodness sake! Any kid, however, who cannot depict the difference between an injured player and the same in a video game should have his parents checked out, not the kid. Comparing a video game to real life is exceptionally sick on Mr. Mushnick's part. All the letter does is prove his ignorance in writing it.

Travis Ransom
Evanston, IL

I have decided to respond to your request for opinions concerning Mr. Mushnick's article in the New York Post. I would say, "Yo, Phil, GET A LIFE!!". His story (or fairy tale) is a good example of irresponsible journalism and a lack of knowledge about his subject matter and that is sickening. First, he doesn't sound like a person who has played electronic games of any kind. Second, he would have us believe the 'children' he is talking about are no more than toddlers who must be saved from this great evil. Maybe Mr. Mushnick will someday have an open mind and play some of these games.

David Ernest
Juniata, NE

The article written by Mr. Phil Mushnick angered me so much that as soon as I read it I got up to write this letter. Mr. Mushnick has probably never played a video game in his life. I'm sure that if he played one he would have seen just how good they are. I don't look for violence, I look for good games that won't bore me after a while. Sadly, violence is a part of our everyday lives and if Phil doesn't understand that, maybe he should come out of the closet and open his eyes.

Eric Flanagan
Manassas, FL

Our dear friend, Phil Mushnick, is obviously suffering from some sort of dementia created by a lack of touch with our society. In his article, he viciously attacks two games which portray two of the most violent sports in our country. I don't feel that the games discussed in the article glamorize violence! And certainly, Mr. Mushnick, video games are not the culprit in shaping a violent society. Try viewing five minutes of television and witness the violence that millions of Americans watch.

Scott Hunt
Louisville, KY

I was very entertained by the Psycho Letter of the Month concerning Phil Mushnick in your April issue. First of all, you guys are right. The writer of the article is very biased, but in a way, the guy has a point. The games are violent, but he did not consider the fact that the violence is all in fun, and most of all, it's just a game! The violence is not to encourage more violence, or as the writer said, child abuse. Get real! Does this guy seriously think that Sega and Nintendo are trying to promote child abuse? The violence is simply slapstick humor like you'd find on any Saturday morning cartoon. This is all fun and nobody is getting hurt. Mr. Mushnick needs to educate himself before he writes a biased article like that again.

Scott Jones
Lee's Summit, MO

I thought Mr. Mushnick was drunk when he wrote his article. It had very little, if any, basis in reality. First, Nintendo has very little violence in its games. It's not as if Mario chases after Bowser with a gun. Second, I was insulted about what Phil said of Sega's Madden games and how he thinks that we all want to see players get hurt or paralyzed. That's not the case at all. Who would want to see a professional athlete who worked all their lives have it suddenly taken away? I don't know what's wrong with this guy but I think he has mush for brains.

Michael-X
Fitchburg, MA

I just received your April issue in the mail and I couldn't believe what I was reading when I turned to the Psycho Letter of the Month. Well Mr. Mushnick, you say that the people at Nintendo, Sega as well as the entire NHLPA can go straight to hell? If that's the case, I feel you can go right along with them. To even suggest that sports video games are promoting violence in everyday life is the biggest load of B.S. I have heard in years. Let's start off with what you said about Toys 'R Us. Since when are they "a headquarters for kids looking to get a leg up on the brutal world that awaits them?" You make a toy store look like a war command post. If you really want to see violence in a game, why don't you go down to the local arcade and play a game of Mortal Kombat with all the gore switches turned on? Judging from your article, this game might send you crying home to mommy.

Mike Pries
Chicago Heights, IL

According to Mr. Mushnick, Madden Football teaches kids violence in sports.

(Ed. This is the first round of letters from players about Mr. Mushnick's columns on violence in video games (see our April Psycho letter of the month for the whole article). The attitudes of the game players range from total disbelief to anger which we have never heard before.

Believe me, I searched high and low, and of all the letters we received, nobody took his side of the story. Keep the letters coming in and it would also be good to hear from parents as to whether you see your children developing violent attitudes because they play video games.)

THE DEBATE CONTINUES

Why is it that every game that comes to U.S. radically changes from the Japanese counterpart? For instance, take the awesome game called Ranma 1/2. I have both Super Famicom versions and they're incredible! But I ask you, why did Irem have to change the characters when they released Street Combat on the Super NES? Did they feel that Americans wouldn't like the present characters or understand the intricate story that surrounds the animation series that this game is based on? I really wish some companies would leave the games the way they are.

Michael Tiefen
Los Angeles, CA

These ridiculous changes have got to stop! What I'm talking about is the video game characters that come from Japan and end up getting butchered by the American companies to suit "our needs." Changes like converting the ultra-cool Ranma 1/2 characters into all new people in Irem's Street Combat and completely taking out Bonk's strange transformation in the Japanese version only hurt the game's quality.

Samuel Brewer
Springfield, IL

Are these changes really that drastic?
Write a response and let us know!

(Ed. While games go through many changes before they reach the market, many of the companies make special changes based upon the familiarity of the game characters. Since a Ranma 1/2 cartoon never aired on T.V. in America, and can only be seen by watching translated tapes, the popularity of the characters seemed weak and the changes were probably made based on that assumption. Besides, if you never bought the Japanese versions of these games, the changes would be unnoticeable anyway.)

CES. WHEN, WHERE, COST?

After reading about all the exciting things that went on at the WCES in Las Vegas, I asked my father if he would drive me to Chicago for the Summer CES in June. If I can get tickets for it, he said he would drive me. Some of my friends said it isn't open to the public but others say I can get in. So I've come to you for the real answer, CAN I GET IN?

When is the exact dates, where can I get tickets and how much are they?

Chris Clarkson
Tecumseh, ONT

Once again, the Consumer Electronics Show will be open to the public.

(Ed. Start packing your bags Chris! Once again, the Chicago Summer Consumer Electronics Show will be open to the public. Because of the phenomenal success of the last show - almost 100,000 people came to see the newest gadgets and gizmos on Consumer Day, the honchos who run the CES have decided to open the gates to the public on Sunday, June 6th. For more show information you can call 1-800-338-6901. For advanced tickets call 1-312-559-1212)

RATED 'R'?

Today, video games are much more advance than before. They seem to cater more to the older audience too. As many American gamers know, Japanese games have more blood and violence and also show a lot more skin than U.S. titles. Can we expect to see these types of games coming to the U.S. in the near future?

Doug Masin
Columbus, OH

Dragon Knight is one of the many games with an adult oriented theme.

(Ed. Don't expect to see anything very risque on the game systems in the near future. Remember that the Japanese attitude towards nudity and violence is entirely different than that of the ours. To them it is not a big deal, while here the companies have to be concerned about parents.

Looking at our game companies, there is Nintendo where seeing blood in a game is unheard of; Sega, where blood is OK but nudity is a no-no (remember Stormlord); and TTI where the conservative approach to the subject seems to be the way they are going to go. Mortal Kombat will probably be the landmark game which will at least loosen up the violence standards.)

WHERE ARE?

While flipping through all of my older back issues, I came across some games that you have mentioned but I haven't seen anything yet. For example, you mentioned Dark Wizard would be coming out for the Sega CD. Since there is a real lack of RPGs on this expensive CD unit, I guess this is the one I'll have to stand in line for.

Brian Minster
Campbell, NY

In the August issue of EGM (number 37), you gave a sneak preview of Super Star Wars. On page 94 in the lower column of photos you showed Luke Skywalker in the trash compactor. I've played this game every day and have never come across this part of the game. Does this involve a trick or something?

B.J. Jones
Palos Verdes, CA

At my local video store, they have a game called John Madden: Champion Edition for the Genesis that is only available for rental. Since it is always checked out, I have never been able to see what this game is all about. Although I was discouraged, I went to every toy and electronic store in the area and they said they've never even heard of this game! Was this simply a mix-up at the video store?

John Schlottman
Baltimore, MD

Madden Champion Edition could find its way into retail stores soon!

(Ed. Okay Brian, we'll start with your question. Yes, Dark Wizard will be coming out from Sega for the Sega CD in July. You'll be seeing more of this game from EGM in the future months as well.

B.J., your question took a little more research. After a call to JVC, we were informed that the version which we took pictures of at CES was a preliminary copy of Super Star Wars. That scene in the trash compactor was taken out to fit the memory requirements of the cartridge.

Last but not least, John. Madden Champion Edition was developed by Electronic Arts strictly for rental purposes. Super Bowl teams are the only real addition but this game has become quite a hot commodity. Electronic Arts has given some serious thought to the phenomenal demand for this game and may even start selling it throughout the country sometime soon. A few video stores are even reporting that the customers are keeping the game and paying the \$150 penalty fee! For more information on Madden Champion Edition, check out the Sports Insert polybagged with this issue.)

U.S. Gold has really struck it with Flashback, their new action/adventure release for the Genesis!

You are special agent Conrad in charge of Molecular density analyzer glasses. These technologically advanced glasses enable you to see aliens posing as humans. The evil aliens have discovered the invention and have erased your memory! Hide out in the jungle, but keep your weapons close to you in case...

Cool cinema intermissions add to the life-like animations in your quest. This is more than just an action game, though - you'll have to use your brain to survive and remember the past. Can you do it?

S Hot on the heels of OOTW is a superior sequel that takes the best of the original and cranks it up a couple of levels. You get a similar search-and-escape mission, with graphics and missions laced throughout that are as intense they don't seem to belong in a home machine. Casual pace, but completely rippin'!

E Flashback is incredible! The story line really grabs your interest and the cinema displays are very detailed. The shining point of Flashback is the awesome animation throughout the entire game. While there really wasn't much music, the sound effects really helped set the tone of the game. It's kind of a short adventure, though.

M A definite must-have cart for Genesis owners. This cart has it all! A cool story line sets the mood of the game as you play along. The graphics are absolutely **R** awesome! The animation is liquid smooth and cinema displays are present throughout. The game plays topnotch, sort of like OOTW crossed with Prince of Persia.

S Flashback is one of the best games ever made for the Genesis. The action is non-stop, and it really feels like you're playing a movie! My only suggestion is that you get a joystick, because the generic Sega controllers aren't precise enough to handle the diagonal motions necessary for **X** some of the specialized techniques.

Hudson Soft brings you all the grandeur of racing in Battle Grand Prix for the Super NES!

Custom build your auto for Formula-1 style racing. Try your new wheels on any of the international race tracks. Maneuver quickly through the turns as you compete against the computer, or provide your own competition via a friend in the two-player mode. Buckle up, there are 3 difficulty levels

It's interesting that Hudson would put this game up against the more enhanced racers filled with graphic candy. Being a fan of top-down drivers, however, I had hoped that this entry might have some new spins on the genre. Although there are some cool features to master, the action never really grabbed me. Average.

I really enjoy playing racing games but unfortunately this one just doesn't hold my interest. The constant overhead display with an annoying split screen is the real turn off because you can't see what's coming up. The amount of options is nice but other than that it's just a simple racing game without much flair.

This is not one of the better racing carts for the Super NES. The graphics are OK and there are tons of options and special features to please the racing fan. The game play is lacking in the control department and having a split screen for the one-player mode is a bummer. The game ends up being another average racer.

One of the things I really like about Battle Grand Prix is the numerous option settings. You can customize this game like no other racing game before it, and choose from several different types of races and courses. What's wrong? The perspective stinks. All turns are blind turns, and without some control, forget it.

Imagine all your worst dreams coming true! That's exactly what Renovation has in store for you in Dream Probe.

A young girl is trapped in science invention: a dream machine. You, a prominent U.S. scientist must go in to save her. Battle her most heinous dreams set inside a futuristic city filled with cybnetic creatures. Master 10 weapons and choose a difficulty setting challenging for you!

Although DP boasts some interesting effects, there really isn't anything mind-blowing here. You get your standard scrolling hack-and-slash served up in a package that isn't too just kind of weird. The action never really heats up and the linear style of play was a little too easy and repetitive for my tastes.

I was really expecting more from Dream Probe. There is a good variety in the levels with plenty of nice scenery to look at, but when you play the game you find the power-ups are rather mild and the bosses slow down the game too much. The music seems a bit repetitive and the sounds just don't grab you.

Dream Probe looks and plays like an imitation of the Valls genre. The graphics are above average at times, but the overall look is thin. The main character is choppy and the power-ups are unimpressive. Some of the bosses are big, but there is a lot of slow-down. Overall just an average game.

At first glance, Dream Probe sounds interesting, and the graphics seem calm and pleasant. Once you get into the game, the constant flickering and slow-down get very annoying, and the music never changes between levels! The action moves too slow, and you can power up so easily that the challenge just isn't there.

Sound asleep, three Vikings are suddenly pulled from their beds by a spaceship! And so begins the story of The Lost Vikings, Interplay's unique puzzler for the Super NES.

The Scandinavian trio must escape from their alien abductors and get back to their homeland. But first, they'll have to make it through a maze of traps to reach gates which may (or may not) warp them home. Test your manhood with the Vikings!

Although credit must be given to The Lost Vikings creators for turning out a solid package of superior visual and audio enhancements, the game play didn't turn me on. I liked the bits that The Vikings put on the run-to-the-exit puzzlers, but having to pilot all three heroes to the exit individually quickly became redundant.

Another excellent job from Interplay! Once you play you're greeted with excellent soundtracks with plenty of bass! The puzzles get very difficult but are never very frustrating. The Viking characters have their own personalities complete with comical antics. This game is a definite must-get!

Interplay came up with a unique way of blending action and puzzle games and has a winner on their hand. Great graphics and excellent sound support are only the beginning of this superb cart. The game play is filled with difficult but interesting puzzles! Some of the levels are huge and require tons of maneuvers.

The Lost Vikings?? From the sound of the title, it would appear you're in for a boring game. Actually, The Lost Vikings is one of the best Super NES puzzle/action games I've seen in a while. The music is awesome!!! The graphics and animation are excellent, and the challenge is right on target. Get this before it's gone!

Bubsy the Bobcat is prowling onto the Super NES with help from his friends at Accolade.

Journey throughout four worlds to pick up as many Yam balls as you can but beware of the evil Woolies! These nasty yam balls could mean the destruction of the world, not to mention you! You'll encounter many obstacles, like the flying fish; you look very munchable to them! Have a ball - a yam ball, that is!

While I enjoyed the detail in Bubsy, the play mechanics are a bit dull. A diversified technique to learn and master brought this cart down a couple of points. All the elements are here, but a lot of the finesse that similar games demand just isn't found here. The levels are long, however, and the game does have its moments.

The year of the bobcat? After playing this cart I can truly say that this game is terrific! Bubsy's tons of spin moves really add a humorous side to the game, and his voice before each level is also funny. The level effects are great with colorful graphics and many hidden areas to find. What more could you ask for?

Bubsy is an excellent new action cart for the Super NES! The graphics are really impressive and the platform scrolling in some of the levels is awesome. The music is really good, too. The levels are huge and there are plenty of secret rooms to look for. The game gets a little repetitive and the bosses are very weak.

Poor Bubsy lost his Yam Balls. After several hours of intense game play, I've come to the conclusion that the antics of Bubsy way overshadow the game itself. The characters are cute, the animations are wonderful, but the game gets lost amid Bubsy's great death scenes and comic actions. Almost a 9, but not quite.

You've got a Spot on your Genesis! Cool Spot by Virgin combines action and attitude to create one of the coolest games yet!

Spot is in pursuit of his kidnapped friends. Only this sud-shooting spot can save them. You will travel from the beach loaded with crabs to the inner workings of a wall infested with mice! Watch Spot's life meter: it will show you how much he can take! Stick around to see if Spot can do it!

Cool Spot is a right-on-target action winner from Virgin! This game is filled with some great sights and sounds, and the interaction and controls are tweaked just right to deliver good response and open up a host of special techniques. The personality in the Spot characters is captured perfectly and the game is a lot of fun!

Cool Spot is one of those licenses that you knew could become a great game! The levels are all spectacular with nice scenery and music to complement the action. Spot's many features like shooting soda bubbles and sneaking in a squeaky voice are nice touches. So don your shades and grab a soda, this one is great!

Cool Spot ends up being one of the most enjoyable carts to play on Genesis in a while. The graphics are cute and the animation of Spot is great. The music and sounds are fitting and having the controls alone has never been so much fun. The game does get repetitive however, but Spot keeps his cool to the end.

Kids across America are going to be clamoring for this hot Spot! Somehow, Sega manages to squeak in the cutest character to ever hit the TV airwaves, add tons of intricate graphic details, plenty of techniques, and a sense of humor! Cool Spot is the coolest cart around town, and this is one license that didn't get away!

Don't like to play by the rules? Mutant League Football by Electronic Arts is for you! If you think a call wasn't fair, kill the referee!

You have 19 teams to choose from and have 19 stadiums to play in. Even if you select the best team, there are flaming pits and land mines to run interference.

Play against the computer or challenge a "friend" for an all-out pigskin mutant brawl!

Although I appreciate the premise of this game (I like the way it expands the limits of normal football), the play mechanics are stolen from the Madden games and the program enhancements that build up the alien theme begin to bog it down. The graphics are good, but kinda messed-up. Not bad, but could have been better.

Cross a bunch of brainless mutants with the skills of football players, and what do you get? A fun game with action like you've never seen before. Killer plays like bashing the referee and killing opponents are just part of the fun! The play book is huge and contains some really unique ones. More fun with two players.

This game could have been cool, if more emphasis was placed on the game play and less on the theme. After you take out the ref a few times and witness a few gory plays, these effects are a little thin. You are left with a choppy, average playing sports game that resembles football. The game is more fun with two players.

What can I say? Mutant League Football has all the things you want you could see in Madden Football, but know you'd never see. You've got to laugh when your whole team runs over and destroys the referee! Is it wrong? The theme is a sight to see, and though the play is a little choppy, the overall fun factor is excellent!

Sega brings the X-Men to the Genesis. This translation from comic book to video game preserves all the great action of the X-Men.

Trapped by Magneto in the Danger Room, Cyclops, Wolverine, Gambit and Nightcrawler attempt to destroy him and his evil group of mutants. Watch out for Juggernaut!

Fight Magneto yourself, or double team him with a friend. All 7 levels are from the comic! Good luck!

The X-Men is a cool license but this game manages only to capture the powers and skills of the best of the bunch, with little innovation along the way. The interaction is a bit jerky; for a comic-based title there should've been more emphasis on fluidity. The game play is straightforward stuff replayed with different characters.

Sure, the X-Men comic series is still one of the most popular, but the game is not a fantastic effort. I wish there were more characters to choose from. The music and sounds are simply repeated noises from other Sega games. Yes, there is a lot of technique in the game and that's the real strong point.

I was not impressed by this cert very much. The graphics are mediocre and animation leaves much to be desired. The sound support is weak at best. The switching of the X-Men characters during the game is cool and the variety of special moves are also welcome. The game is very choppy and the control needs work.

This is the type of game I must have. X-Men is loaded with more techniques than your average no-toy game one-scroller. The ability to switch between my favorite comic action heroes during play is a welcome bonus! Each character's abilities closely reflect the comic's descriptions, right down to the walking and jumping!

Burn up the sky in Sega's After Burner III! Strapped in an F-14 Tomcat, you're in for some serious maneuvering and bombing!

Your targets are aerial and surface originating. The Vulcan machine gun and missiles are your only forms of offensive action. The After Burner will give you an extra thrust of speed. View the ongoing battle from the cockpit or the rear of the plane and lock onto those enemies!

This is one of those products that just begs to be done on the CD. Imagine the cool jet plane sounds, rocket effects, and thumping-to-the-death rock music. Imagine the first-person scaling and in-your-face enemy fighters. Imagine an After Burner that doesn't end get half-way in both departments. A disappointment.

After Burner was one of the best simulators in the arcades and this one is a valiant effort. Although the music is somewhat tame compared to the After Burner II, it's not a bad effort. There is plenty of things to shoot and the weapons are okay, but I really would have expected more from a CD game.

If Sega is going lure players away from the Super NES games as good as StarFox, they'll have to do better than this. The music is good but even the opening animations are unimpressive, with minor scaling and rotation. The game play needs some work. The best feature is when it scales into the cockpit.

Wow! I used to be hooked to After Burner in the arcades, and now I'm finding myself wishing I had a flight stick to really get the feel of banking in and out of those treacherous turns! After Burner has long been the forefather to arcade dogfighting, and After Burner III is no exception. This is a welcome addition to my Sega CD lineup.

C+C meets the Sega CD in Sony Imagesoft's Make Your Own Music Video. The newest edition to the M.Y.O.M.V. library is a smash!

Choose from Gonna Make You Sweat to Things That Make You Go HMMM. There are 3 different frames of footage to select from. You may also create 16 types of video effects on the footage you choose. Judges will let you know how your video rates. Here we go, Let's rock 'n' roll!

I really despise these so-called "games." You watch a bunch of footage while the song plays. Then you hear the song again and see the video. Since there's little to this title besides music, I have to review the band. I hate C+C. Please, enough with the torture. I can't have "I missed the bus" ringing in my head...

The music video idea seemed really cool when the first CD hit, but now it seems that it's getting old. The same film footage for the videos is always being reused and the video effects seem weak now. But, C+C is a good product and for those who really enjoy the music and don't mind stock footage, then this game will please.

While this type of game shows off the Sega CD's ability to produce full motion video effortlessly, there's not too much of a game here. If you happen to enjoy his group than this may be of interest. The acting is very low budget and it is almost impossible to win the judge's favor. If you want to crank some tunes, then go for it.

Oh well, I suppose I would recommend this CD if you like C+C Music Factory, and you don't mind not ever winning a game. The music is excellent, the video footage is funny, but the game? What game? This CD could have done better if they didn't try to simulate a game into a great video editor. Wise up, folks!

Duo	Hudson/T.T.I.
Magical Chase	
Action	Now
6 Levels	4 Meg

Hudson and T.T.I. have teamed up to mesmerize you with Magical Chase for the Duo!

As a broom-carrying witch, you are in search of an evil wizard. Collect money to buy items that will give you extra speed and longer lives. Don't forget to stop at the weapon shop; six forms of witch artillery await you. Encounter prickly porcupines, giant teddy bears and many other enemies. Conjure up some crafty spells!

This is a decent shooter with a really strange premise and background. Although you're operating without photons and shields, the quality and pace of the blaster action is top-to-par with the majority of the titles on the market. Magical Chase doesn't break any new ground, but it does offer up a nice battle.

The idea of a witch riding a broom is a nice change from the overused "ship in space." There is plenty of technique and the ability to buy power-ups at the store is really nice. The music is great for a chip game and this one won't bore you after a couple of tries. A definite winner for people of all ages.

Another really good shooter for the Duo from the folks at Hudson. The game is very cutey and some of the enemies are downright bizarre. Good graphics and sounds backed up by solid game play with lots of technique. If you like shooters and are tired of the same old outer space theme, then this card is sure to please.

Magical Chase could just as easily be called Lords of the Thunder SD! It plays extremely well for a fantasy game, and the enemies are, at times, very funny. This is the Paradise of the Thunder series, and will entertain kids of all ages. Any devoted Lords of Thunder fan will probably want to get this game.

Duo	T.T.I.
Riot Zone	
Fighting	October
5 Levels	Super CD

Beat the streets in Riot Zone! This new fighting cart from T.T.I. packs a mean punch.

A bullish crime syndicate has taken over your city and your girlfriend. As Hawk, you will use your deadly judo skills and other special attack moves to defeat your foes. If you need backup, Tony, the punk wrestler, will pound some skulls. Eat food icons for needed life! Kick it in the Riot Zone and reclaim your city!

Here we have that occasional CD stumble: great music with the game play. In a world filled with SF games clones, T.T.I. must do better than games like Riot Zone, which is basically a punch-and-kick back to the past. Little technique is to be found and, despite adequate graphics, this CD title was a let-down.

What looks to be in the same game as Final Fight, Riot Zone just doesn't offer much more than kicking and punching. The enemies get repetitive at times and the sound effects can be annoying, too. The music is fantastic but it doesn't make Riot Zone a great game. It seems a bit too late for its time.

This could have been a great game for the Duo, but so-so game play and choppy graphics keep it down. The game is devoid of any real technique and proves to be as repetitive and tedious as a fighting game can be. If you choose the punk rocker, he walks like there's a stone stuck in his shoe. Great music, but poor game.

I realize that Riot Zone is a CD game, but while playing it, I came to the distinct realization that if the sound was turned off, I couldn't tell. The music is great, with rocking guitars and bass, but the game itself is very slow and choppy. I didn't like the control at all, and overall, the game is too simple! If you want technique, no dice.

Nintendo	Capcom
Duck Tales 2	
Action	Now
6 Levels	2 Meg

Scrooged again! Capcom brings the quacky Duck Tales 2 to the NES for loads of fun!

Scrooge McDuck is off on another wild adventure. Help him find lost treasures around the globe, including the hidden world of Atlantis. Brandishing only his trusty cane, McDuck must climb, hang, hit, jump and pogo. Each world holds a boss to tackle along with many treasures to find! Bills up, go get that treasure!

Capcom scores another Disney hit with DT2. Following up on the other entries into this field, DT2 gives you control over the required Disney character in another contest against nasties in a Mega Man-style universe. The action has a nice pace and the graphics are rendered well for an 8-Bitter. An all-around good time.

Ah! Duck Tales 2 is enough to make you want to dig out your NES again. The game play is wonderfully smooth for a NES game. The game has colorful graphics and has challenging puzzles to solve. The music isn't very annoying either. It may seem a bit rough for the smaller tykes, but makes a great game otherwise.

Duck Tales 2 is a great example that 16-Bit graphics and high meg counts are not necessary for a great game. The game play is filled with techniques, some old and some new. There are plenty of mysteries to solve and hidden levels to find. The graphics are nice, sound is bearable, and the game play is excellent.

Hey! Who said third-party companies should make games that justify holding on to your NES anyway? Duck Tales 2 is one of those fun games with innovative techniques, cute graphics, and surprisingly fitting music. Just when you thought the NES was dead, leave it to Capcom to revive it once more! Sheesh!

Go head-to-head or foot-to-foot with the country of your choice in SNK's Super Side Kicks.

If soccer is your game, then check out this rough (and sometimes bloody) version of the sport. Varying weather conditions make the game more interesting; if it's raining, you and your teammates will slide all over the field, knocking into each other! The action is fast and furious, so polish up your cleats to win!

Even if you're not a fan of soccer, this game has an engaging and addictive quality to it. Employing a simplified control mechanism that can be enhanced with special maneuvers (and quick feet), this game does the Neo-Geo proud with stunning graphics, great music and sound support, and continuous interaction.

Neo-Geo sports games seemed to have more show than go, but Super Side Kicks can really go! The graphics are wonderfully done, the sounds are incredible and the game is just plain fun. As a one-player game it's very tough, but as a two-player game it really shines. This is a game for all soccer fans to check out!

Super Side Kicks is a great looking and great sounding sports title. The players are animated well and the voice is great. The game play is very simple and easy to get used to. The action can get very intense and the computer is extremely cheap at times. The playing against another player for the most fun.

I am a devoted soccer fan, and I was quite pleased to see the game make it to the Neo-Geo. It is not perfect by any means, but with so few soccer games on the market to compare to, it comes out on top. The graphics are well-drawn and the music is decent. If you are a hardcore Neo-Geo owner, you'll like it.

Start cooking! That's what you'll be doing in Yoshi's Cookie, the new GameBoy puzzler from Nintendo.

Riding on the success of his first game, Yoshi is back with the help of Mario, of course. It is your job to put five kinds of cookies in their proper rows (all the same kind in each row). Score big when you make a large row of goodies which are cleared for points. The object is simple: get the most cookies out of your batch!

For a puzzle game, the latest offering by Nintendo is an interesting diversion. While it tries hard not to be like Tetris, you can't help but end up with a bad case of *deja vu*, albeit a somewhat enjoyable episode. This game is not going to set the world on fire but should do a little addressing the masses starved for yet another Tetris.

Portable puzzle games have really offered nothing new lately, since you get used to weird play. Yoshi's Cookie is an interesting idea that really keeps you glued to it for hours. Tetris was always a favorite but the little green dinosaur may be taking over. Linking up with another player is still the best.

Yet another interesting puzzle game from the minds at Nintendo, the concept is a little hard to follow at first, but after a couple of plays, you'll be picking up cookies for massive points. The game has a whole different feel than Tetris, but fans of portable puzzlers should take interest. A fun and addicting time waster.

Maybe Nintendo finally realizes that this is the type of game that really works on the GameBoy! Puzzle games like Yoshi's Cookie are perfect for the tiny unit, and the addition factor is high. It may not be Tetris, but the new twists are good enough to keep the player's interest. How many falling-shapes games will we see?

Flex your muscles for the original of the fighting games. Virgin brings Double Dragon kicking and punching to Game Gear.

Billy and Jimmy Lee must rescue the beautiful Marion from the evil Abobo brothers. These guys have the muscles to do it! Use attack moves like kicking, punching and throwing to annihilate your opponents. Set in futuristic cities, Double Dragon will knock you out!

The visuals of this game are strong - duplicating the original title's animated feel. Unfortunately, despite the fact that the programmers have the 1987 look down pat, the game play on this classic kicker is weak, and the lack of complex techniques screaming out at every encounter. Not bad, but definitely dated.

Fighting games are relatively new to the Game Gear and this is a pretty good addition. While there isn't much variety in the moves, there is still plenty of thugs to beat up. The 8-Bit tunes were actually catchy but the overall execution of the game could be better. Still, it's not a bad game for fighting on the go!

I would have liked to have seen better graphics and game control. The game looks pretty good for the small screen and the music is decent, too. The game play features a variety of moves and weapons, but getting them to connect with an enemy is the tricky part. If the game wasn't so choppy it could fare well.

Double Dragon is a fairly decent game for the small screen, but it is hard to see exactly what is going on sometimes. I would have liked to see more technique built into this classic game since all I had to do was punch, punch, punch, punch. Overall, Double Dragon is a good fighting game if you're on the move.

QUARTERMANN'S

Q-LETTER

FOR EGM SUBSCRIBERS ONLY!

The Q-Mann Has the Soft Touch...

...Boy does the Quartermann feel refreshed! Some great gossip in this month's EGM, a killer column in the new comic book mag, HERO, and a special voice to the real power behind the success of EGM - you, the faithful subscribers who know a good thing when you see it! Yours truly has packed some miles recently - all on your behalf! While you may have read about some of the softs looming around the corner on the "Gaming Gossip" page, I thought the wealth of knowledge and insight sloshing around in my noggin' would be perfect for my second Q-Letter...

...Star Wars games are becoming a hot trend, with a variety of different packages set for all the major systems. Top on the list is "Rebel Assault" by JVC for the Sega CD. This game is going to be a CD blockbuster, with tons of digitized footage from the movies and incredibly fast action. Similar in style to the X-Wing computer simulation, this game will focus on the Death Star attack, serving up a stomach-churning ride through the trenches of the Empire's ultimate battle station. This game will also boast a bevy of techno-innovations, including new data compression techniques and better color selection. Don't start looking on the shelves until late this year or early in '94...Lucas is set to release "Super Empire Strikes Back", the 16-Bit follow-up to last year's superb action entry, later this year. The game follows the storyline of the movie, with incredible 'Mode 7' effects (including 3-D terrain), the introduction of 'The Force' (invincibility), as well as a new 'Super Force' that allows Luke to throw his lightsaber and control its movements. You'll also be able to accomplish new techniques like a double-jump (a la Ghouls and Ghosts)...Software Toolworks will be lifting their own Star Wars lid with "Star Wars Battle Chess", a unique twist on the typical chess theme. Instead of kings, queens and pawns, Toolworks is serving up Lukes, Leias and 'droids...

...Electronic Arts is planning to kick into overdrive on their new line of "Mutant League" titles. Following hot on the heels of "Mutant League Football" comes "Mutant League Hockey", "Mutant League Football 2", and "Mutant Speed Demons". All three of these 16-Meg monsters will hit many moons from now, with Hockey joining the line-up by Christmas and Football 2 and Speed Demons both seeing light in early '94...ASCII is considering a move into CD games with a property called Steel Diver. The corp.'s big plans for '93, however, revolve around a fleet-footed fox that bears a smashing resemblance to Necky the Fox, the curious canine that graces the covers of ASCII's Japanese video game mag, Famicom Tsushin...

...Look for Software Toolworks to put their faith in Mario-madness! The company plans to bookend their "Mario is Missing" game with five new titles that address themes like geography, history, math, early learning, and reading. The folks at Toolworks are also diving into 3DO in a big way, with a new shaded-polygon programming routine that will be used to enhance their first title on that machine called "Cyber Race". Also look for a Super NES and Gameboy version of "Captain America", a Super NES copy of "Wing Commander Secret Missions" due in October, and an AI Unser racing game for the Super NES and Genesis hitting next February... "Star Trek: The Next Generation" will warp onto both the Super NES and Genesis (both clocking in at 12-Meg), as well as a CD adaptation that will be loaded with the usual goodies...

...Terry Aki has just flown in from Japan with an assortment of news that's sure to please! Irem is currently laboring on a 16-Meg version of R-Type tentatively called, now here's a stretch, "R-Type 3" for the Super Famicom. Also keep your eyes peeled for pix of a new racing game rumored to be under development at Nintendo that will use the Super FX chip! The title? F-Zero 2!

- QUARTERMANN

QUARTERMANN'S "TOP TEN REASONS WHY CAPCOM INTRODUCED SF2-CE"

...Sure, the Q-Mann has been saying it all along, but would you listen? Whether you had Q-Faith or not, Capcom has signed onto Sega and SF2-CE is right around the corner. But did you know the decision to intro CE on Sega was more than just fun and games???

10. Capcom was heeding Clinton's call for new investment.
9. Capcom wanted to make a splash in Sega and they didn't feel Capcom Bowling would cut the mustard.
8. Capcom President wanted saucy new sports car.
7. The programmers just couldn't get the extra World Warriors into the 16-Meg Super NES version. No, really, they couldn't do it.
6. That Blanka character started copying an attitude and asking for more royalties.
5. Capcom didn't want to face the riotous masses that would have gathered at their CES booth had it been debuted on the Super NES.
4. Insect politics.
3. Capcom knew the Neo-Geo clones would start cutting into their market-share.
2. Capcom wanted to make sure that Sega used the Q-Sound (man I love that name) system in all their new games (just don't tell 'em that Capcom owns part of that company!!).
1. Capcom wanted to have five more EGM covers for 1993.

THE Q-MANN REVIEWS...

BUBSY

A lot has been made of this action game featuring a new franchise created by the marketing firm of Accolade Inc. While the strength of the character seems pretty solid (it's still a rumor, but a TV show is supposedly just around the corner), the game is a bit different story.

While the graphics and sounds of this fast feline adventure are well done, it's the subtle points which could

and probably should have been done better. The control suffers the most, with sluggish manipulation in certain encounters and an overall lack of spontaneity in the way the nasties enter the picture.

Bubsy does have many merits, including a crisp look and large levels, but the lack of small differences in technique are what separate it from the big boys, Sonic and Mario.

THE Q-MANN REVIEWS...

COOL SPOT

Here's the kind of all-out action that yours truly can really appreciate. In Virgin's latest Genesis title, you assume the identity of one of those 7-Up dots from the commercials. Unlike the first game, however, which tried to be more of a puzzler, this game is all-action from start to finish, with great visual FX and animation that is really cool.

Sure it boasts some of the features that have made

similar carts shine, but Cool Spot does it with more style, and interaction that makes up for some of the problems the equally-intensive Global Gladiators suffered from.

This game is also a great cart to show off just how good the Genesis can really be when there's a programmer who really is out to make something great. Cool Spot is a winner with quality and class from beginning to end.

THE Q-MANN PREVIEWS...

TOTAL CARNAGE

While it's tough to judge this zippy little shooter (face it, it's only 20% done) today, the graphics and interaction are shaping up to make one of the best shoot-out sequels in recent memory.

The sequel to the coin-op sensation, Smash TV, Total Carnage boasts a testosterone level way above your average blast-a-thons. Strap yourself into your seats for a scrolling blow-out featuring combo play,

tons of painful weapons, and huge (no, let me say this correctly), I mean HUGE on-screen characters. Toss in a few incinerated soldiers and babes in bikinis and you get a battlefield that stands head-and-shoulders above the others. There's even an electric chair sequence!

The Q-Mann will keep you posted on this super soft, with some pix just for you in the next issue of EGM.

TOP TEN TITLES IN VIDEO GAME SPORTS

John Madden, Electronic Arts, football... need we say more?? Great plays, tons of options, and a great fun-factor all combined to bring you probably the greatest sports title yet! The third installment of this Genesis classic is perhaps even better than its predecessors. Congrats EA!

JOHN MADDEN '93
Great hits and plays will really have you yelling "touchdown!"

NCAA BASKETBALL
A scaling and rotation tour-de-force. He shoots, he scores!!

TECMO SUPERBOWL
Perennial 8-Bit favorite. Lots of fun with more than one player.

BULLS VS. LAKERS
Another excellent sports effort by the folks at EA! Jam it home!!

NHLPA '93
Fast paced and rough-and-tumble! Not for the timid!

HOLE IN ONE
Highly addictive. Play this only if you have a year or so to kill!

TECMO SUPER NBA
Greatest moves! Enough dunks to give Air Jordan varicell!

F-ZERO
The epitome of Super NES racing games. Start your engines!

PGA TOUR
Computer-like interface gives you tons of great control. Fare!

SUPER BOWLING
Bowling?! Yes, bowling. All we can say is, "Try it, you'll like it!"

READERS' TOP TENS

You would think that after all this time, people would be diggin' some newer games... NOT!! Capcom's mega-hit is regaining its top spot due to its fantastic play, graphics and highest character recognition since Pac Man! Let's face it everyone, we all love Street Fighter!

STREET FIGHTER 2 / SNES
A truly great game! Thanks Capcom, it was worth the wait!

SONIC 2 / GENESIS
A fantastic sequel to a fantastic cart. More fun than a barrel of...?

MORTAL KOMBAT / GENESIS
Skeptics of this game were quoted very quickly! Fantastic!

CONTRA 3 / SNES
Konami's Super NES installment of the Contra series was a real hit!

DESERT STRIKE / GENESIS
Flying a chopper around the desert was never so much fun!

AKELAI / SNES
Tie: Konami's cool shooter scored big with wild Mode 7 effects.

NIGHT TRAP / SEGA CD
Save the girls from the terrible sugars. Watch out for the drill!

THNT 4 / SUPER NES
Tie: The Turfies' Super NES cart ranked highly with our readers.

STREETS OF RAGE 2 / GENESIS
Axel and Blaze are back once again to fight the evil forces!

MORTAL KOMBAT / SUPER NES
Tie: Fans of the arcade version won't be disappointed by this one!

GAMING GOSSIP

...Exclusive SF2 info...Acclaim interested in Cameron...New Godzilla Games...3DO's Future...Sega Answers SFX Chip...
...New Star Wars Softs Coming...Atari Jaguar to be Computer...Icom Software Sells Out...Game Sequels in the Works...

...We're in 16-Meg mode this month my little Quarter-friends, with the hottest info on super softs like SF2-CE for the Genesis and plenty of pork for you hardware heads as well! Have your ICEE points in hand and remember that looking at your neighbor will not be tolerated in this classroom...How can the Q begin this classic column without drawing your attention to the head ed's cover romp: **STREET FIGHTER 2-CHAMPION EDITION IS COMING IN JUNE FOR GENESIS!** Capcom has signed onto Sega and will unleash SF2-CE as their first entry. The master of all martial arts battles will hit the U.S. before it shows its face in either Japan or Europe, packing 16-Meg of power and a price tag somewhere in the sixties! Some new features include voice, the barrel bonus stage instead of a brick bonus, and the ability to play with either the new Sega 6-button pad (which is being redesigned to be larger as you read this) or the wimpy 3-button controller we've all grown to love (you use the "Start" button to toggle between either the kicking or punching action - yech!). And of course the new Boss characters will be added to juice this version up and require everyone who put down \$150 for a Super NES and SF2 cart to buy another version...Other SF2 rumors from Japan have a Super Famicom translation of the Turbo CE version in the works. Capcom won't comment on this (where did all the new "open-ness" go to?), but the Q-Mann has it from a highly reliable source...

...There are a variety of hot softs now in pre-production (subscribers should check out this month's Q-Letter for a complete run-down of new games). Some of the highlights include Bubsy 2 and R-Type 3! Check out next month's EGM for some possible pix...Exiting this topic the Q-Minator must provide the proper updates for SF3: the entire cast of characters will be back for part three, with some new additions as well as an interesting new technique that yours truly has been sworn not to reveal (at least until next month). Also, while we're on the subject of juvenile reporting, Capcom will not be releasing SF2-CE in tandem with a Sega CD version (although a product that includes actors, voice and music is rumored to be in the works) and Sega has snapped up the rights to the awesome shooter Silpheed from Sega CD developer Game Arts...

...The guru of gossip has learned that Icom Simulations, famous for their Sherlock Holmes games and their, er, Sherlock Holmes games, have sold out either part or all of their company to a Japanese investor looking to get into high-end games. Also, Icom is rumored to have successfully completed work on a development system which creates dual versions of the same game that can be instantly ported to any system platform to save publishers some big bucks...Acclaim is rumored to be inking a deal with James Cameron's production company, Cameron, who brought us Aliens and the Terminator flicks, is set to deliver a bunch of films for Fox after finishing Spider-Man for Carolco. The Acclaim deal would give the licensing super-power first-rights to Cameron's new ideas...Speaking of licensing, don't be surprised if you see a game based on the high-tech, big-budget Godzilla movie coming next year from Tri-Star. The most likely source of monster carts and CDs would be Sony...For the worst license of the year (or decade for that matter), how about "Federal Express" I won't embarrass the company that has plunked down the bucks for this title, but man is it a stupid license...

...3DO has a special plan up their sleeve to entrench their machine in the hearts and minds of consumers before a cable game system becomes operational. The Q-Mann has heard from reliable sources that 3DO will market their machine not only as a self-contained game system, but also as an enhancement board for PC owners! As a high-end graphics and interactive upgrade, the Quarter-Witt goes full thumbs-up (even if the price is still too high)...Atari seems to have a similar plan with their Jaguar, which is targeting the high-end of the market for their 64-Bit RISC-processing mega-system, and is rumored to be embracing an end-goal of building onto the Jaguar with hard drives, keyboards and even virtual-reality head-gear to attract computer-heads...Sega has answered Nintendo's SFX chip with an upgrade of their own. Called the "DSP" (yeah, I know what it stands for, but it's their name, not mine), the new chip will give Sega games the same speed advantages but no real palette enhancements...Star Wars games are hot, Hot, HOT! Yours truly has seen development work on not only Super Empire (great Mode 7 FX with hills!), but also Rebel Assault (an X-Wing fighting game in the trenches of the Death Star for Sega CD) and Star Wars *Little Chess* (using the characters in place of chess pieces). All are wicked awesome...

EGM EXPRESS

NEW 32-BIT GAME SYSTEM FROM FM-TOWNS!

The makers of the Japanese FM-Towns computer system have just announced a new smaller version of their system. Called the Marty, this mini-computer has been designed with the game player in mind.

Inside the Marty is a 32-Bit CPU, 3 MegaBytes of system ROM and 2 MegaBytes of main RAM. A floppy disk drive and a CD-ROM drive are also built in. About 167,700 colors are in the color palette.

All of this technology doesn't come cheap though, as Marty will have a 98,000 ¥ (\$ 810) suggested retail price. One controller will be included.

For those who want to use Marty as more than a game machine there is a keyboard, a mouse and a modem communications card.

Special attention has been devoted to the audio as Marty will have 9 channels of PCM (Pulse Code Modulation) and 6 channels of FM sound along with CD digital audio.

Although expensive, Marty will bridge the gap between computers and games.

The new 32-Bit Marty will play both floppy disk and CD-ROM games.

Three new games (Microcosm, Ms. Detective and Habitat) will be initially available. It should be noted that many of the older FM-Towns games will not work on the Marty as two floppy disk drives are needed, and the Marty does not have an extension for the second floppy drive. Also, Marty will not play the current FM-Towns software because the operating systems are different. All future FM-Towns computer games though, will be Marty compatible, and there will be additional new games, both educational and entertainment, that will be designed to take full advantage of the more efficient CD-ROM drive.

There are no current plans to bring the Marty to the U.S.

MARTY CD-ROM SOFTWARE

Three games, Habitat, Microcosm and Ms. Detective (left to right) will be initially available for Marty. More new ultra high resolution CD-ROM games will be available later this year.

SYSTEM SPECIFICATIONS

PERIPHERALS

A keyboard, mouse and modem will transform Marty into a powerful computer.

We ripped-off a perfectly good idea.

TRUE ARCADE ACTION. You'll find that the only thing missing from our new Super Advantage is the coin slot. Okay, so we added an extra long cord. And our joystick is easier to carry than an arcade machine, not to mention a few thousand bucks cheaper (that means under \$50, suggested retail price). Bottom line is, this is about as close as you can get without grabbing a crowbar and—well, you get the picture.

The layout's familiar, and the construction's tough enough to handle the most intense street fight or the ultimate battle for the universe. We've also added a few features you won't find in the arcades—state of the art effects designed specifically for today's most radical games. No wonder we call it the...

SUPER ADVANTAGE.

OVERSIZED JOYSTICK.
8-way directional control provides true arcade action.

VARIABLE SPEED SLOW MOTION.
Slow down the entire game when things get out of control.

TURBO SPEED.
A fully adjustable fire control system (up to 30 shots per second).

AUTO TURBO.
Continuous firing that's hands-free. You won't find this anywhere else.

FIRING BUTTONS.
Instantaneous response, and built to last.

SEGA, 1993 AND BEYOND...

Rumors, rumors, rumors. In this industry, like many others, rumors pop up weekly about the next generation of game systems, software, new technology and company marketing plans and strategies. Quite often it is very difficult to tell truth from fantasy.

For example, will Nintendo be able to sell their 32-Bit CD-ROM machine for \$200 like they say they will (fantasy)? Will Sega drop the price of their Sega CD this Christmas (truth)?

The Nintendo issue will be addressed at a later point in time, but EGM ran into Mr. Al Nilsen of Sega and decided to get the official story about some of the new projects that Sega is working on.

PHANTASY STAR 4

"It still is very early but it really looks nice. Right now there are a couple of screens up to get the feel of the game. It is now scheduled for first quarter 1994 release here in the U.S. We are trying to have a simultaneous English translation done but we won't know if that is possible for about 4 months from now. Unless something major happens, it won't be shown at June CES."

SILPHEED CD

"Game Arts [the developer of the game] is dedicated to doing great Sega titles. For the U.S., the name will change on Silpheed. When I was in Japan, there was nothing new to see beyond what was at CES. It's way cool. This will be a major feature of the June CES. But, we are not building a dome. I want this known right now, I am NOT building a dome [referring to the dome that Nintendo built around their StarFox game at Winter CES]."

SONIC CD

"There is no set schedule for it. Are we working on a Sonic CD, absolutely. Will we release a Sonic CD, can't tell you. The goal of Sonic CD is very simple. Sonic CD has to be to the Sega CD what Sonic 1 was to the Genesis...which was killer and break-

through. We have done some dual pathing on it and we will keep pushing technology to the point where Sonic CD is a product that sells hardware. I will not release Sonic CD that doesn't do that. We have raised the stakes with Sonic 2 and Sonic 3, and it's getting harder and harder to make improvements and until something happens that we are comfortable with, we have decided that we will not talk about it and we are not going to show anything because the product is just not there. It's the number one product that kids want for their Sega CD and I am not going to disappoint them. And we won't know until mid May whether it will be at CES."

SONIC ARCADE

"We have developed two Sonic arcade games that have never been released because they were not the specialness that Sonic was. We are continuing to look to see if we can do something with Sonic in the arcade. There is a Sonic arcade project but nothing scheduled for release."

SONIC 3

"I talked to the designer last night. The game is bigger, memory size, number of levels etc., it is a sequel. Tails is a part of the Sonic story...yes Tails is in it. Hopefully for CES but no promises."

SPORTS GAMES

"We are really redoling almost our entire sports line. Baseball, football, basketball, wrestling, tennis and a major focus of the June CES will be sports. On all three platforms...Genesis, Game Gear and Sega CD. Sports Talk will continue...in its third iteration."

VIRTUA VR

"Virtua racing will not be one of the first games for VR. Contrary to what Quatermann said it won't be coming out. We cancelled it as soon as Quatermann said it. We can't make a truth person out of Quatermann [a joke!]. Three games will be at CES."

MENACER

"There are new Menacer titles from

both Sega and from third parties coming at CES."

FOUR PLAYER TAP

"There are no plans at the present time. We're looking at it but there is no firm answer now."

CD GAMES

"CD software will be a major focus at CES." Will Mickey Mouse jump to CD? "Maybe."

SEGA 2, SEGA CD 2

"They primarily were developed for Europe and Japan will be doing it. Right now I don't see it happening for the U.S."

GAME GEAR

"Sonic 3 looks cool on Game Gear. The Majors 2 will be coming out. There are 20 new titles coming out. Jurassic Park looks great. Asterix will be coming over from Europe. Tom and Jerry will be coming in July. Surf Ninjas will hit in July also. (August for Genesis). Aladdin is wonderful (all systems). Stay tuned."

SEGA CD PRICE REDUCTION?

"One of the very disturbing rumors is that some people are saying that you will see the Sega CD in the fourth quarter for under \$200. That is absolutely untrue. That is not good as I can almost already hear the phone calls. That type of rumor can kill the business all based on something that is not true. There is no way that it will hit the price point. Are we going to try for a lower price? Yes. Will we get under \$200? No! We are going to try like mad to lower the price but you have D-RAM costs, you have V-RAM costs, and the worst cost of them all is that drive. Yes the drive can be made cheaper, but then the yield [dependability factor] is that much lower. There are no major decreases coming. There will be large scale integration of the components but it's not savings. The \$299 is already lower than our normal margins. If I can get savings, that I can pass on, will I?...yes. When? I don't know."

FATAL FURY

SEGA GENESIS
ULTIMATE AMUSEMENT

ARE YOU TOUGH ENOUGH FOR THE ULTIMATE FIGHTING CHALLENGE?

FATAL FURY is here, and only Takara brings home all the power of the smash coin-op arcade magnum to the SEGA GENESIS System. Blazing fast animation and realistic moves make this game the one to beat each with his own unique style of fighting — and take on nine enemies, each possessing their own fighting skills and hidden powers that defy the force of Nature itself. Witness their terrible might as they hurl energy blasts, unleash tornadoes, even turning their entire bodies into human torches! And just when victory is in sight — plang comes Tung Fu Rue, who can transform himself into a Giant of Iron, flying force.

The battle is joined on a journey through the mean streets of South Town. Fight hard as day turns to night on the Beach or Amusement Park, or as driving rain clouds your sight at the Chinese Temple. Superb animation and horizontal scrolling reveal new areas of the challenge, as attack after attack is met and mastered. Eight locations in all, each with unique background animation, music and sound effects.

Huge characters leap right off the screen. Special skills, magical powers and multiple attack moves combine with lightning speed to create the perfect fighting action game. Take on the computer or another player head-to-head. Are you tough enough to handle the challenge of **FATAL FURY** and become the **KING OF FIGHTERS?**

NBA JAM

• HOW IT RATES •

Well, what can we say? If you thought *Mortal Kombat* was cool, do yourself a favor and check out *NBA JAM*. The graphics will leave you slack-jawed like some kid about to score a two pound bag of his favorite candy!

The game play is equally impressive. The technique that this game requires is perfect; not too hard to learn, but not too easy to master. This puppy really shines when you get a game going with four friends. My only gripe is that the voices of the announcers get a little annoying. A pretty minor complaint when you think about it! Good job, Midway!!

Overall:

From the creators of T2:

The Arcade Game and *Mortal Kombat* comes the ultimate sports coin-op. Midway's *NBA JAM* sports the latest in digitized graphics. By utilizing a special scaling chip, *NBA JAM* delivers graphic detail of unheard-of smoothness and depth. In fact,

Get ready to cut loose with a flurry of mind-bending slams, jams and dunks.

Pick your fave NBA superstars from an impressive list of the league's 27 teams.

the graphics are so good that you'll think that you're watching an actual NBA game! And in a way, you are! The graphics were digitized from actual live footage!

Pick your favorite stars from a selection of 54 of the league's hottest players. You get full control of passing and shooting as you execute some bodacious dunks and slams. Use the "Turbo" button for a burst of speed when you need it. Anywhere from one to four players can play. The *JAM-CAM™* keeps track of all of the players' signature moves. Take it from us, *NBA JAM* is totally smokin'!

The *Autostat™* feature keeps a record of rebounds and assists just to name a few.

SATURDAY NIGHT SLAM MASTERS

With the plethora of fighting games currently on the market, it's nice to see something fresh. Enter Saturday Night Slam Masters from the folks at Capcom.

Fans of previous fighting games will not be disappointed! If you're looking for loads of playing technique, great graphics, multiple-player options, and enough rough-and-tumble wrestling action to satisfy any wrestling maven, then this game is definitely for you!

Pick from ten hilarious wrestlers such as King Rasta "Mon," the berserk jungle man with a bad attitude, or Jumbo "Flap" Jack, the leaping bad boy from Canada.

Players get two option modes, team battle or one-on-one. In the one-on-one mode, it's you pitted against the computer. In the team battle mode, you can play up to four

players at once! With two teams in the ring at once, you can bet that the action gets totally out-of-control!

The graphics in Slam Masters are excellent and there's plenty of moves to learn and take it from us, they will make you laugh out loud. What are you waiting for? Step into the ring with Saturday Night Slam Masters from Capcom!

Have a seat! Clobber your adversary senseless with whatever is handy.

Go head-to-head with some friends in the four-player wrestle-fest.

Each competitor has their own unique fighting style and specialty moves.

THE PUNISHER

1 PLAYER PROFILE

Choose The Punisher or Nick Fury as your character in the fight against crime.

Well, it looks as though the Kingpin is up to his old tricks again. Who will save us? Frank Castle and his buddy Nick Fury from S.H.I.E.L.D. pool their crime fighting talents in the hot new side-scrolling action game

The Punisher from Capcom.

Make your way through the six huge levels while fighting the Kingpin's henchmen. You can regain your lost health by eating the special food icons that pop up throughout the course of the game. Choose from some serious weapons including machine guns, baseball bats and rocket launchers. To make things even more intense, you can play either alone or with a friend.

The game play is great with unusually precise control for a game of this type. In addition, the various sound effects, explosions, screams and other audio goodies will truly rock your world. The graphics have

the look and feel of the hit Marvel comic book. *Very excellent!*

Slated for an April release, The Punisher will surely be a hit with the comic-to-game crowd. Load up on your quarters!

Punish the bad guys with various weapons like guns and grenades.

ELECTRIFYING

SUPERCHARGED GAMES

You'll need to unleash your fatal lists on some bad dudes and crazy creatures. Punch-in and get to work because this job will take a real super hero!

There's bone crunching action for Sega Genesis too. Unless you want some free dental work you had better stick in the mouthpiece, strap on the pads and CHECK it out!

This head banger' hard checkin' free-for-all will rattle your bones and send you tyin' into the next county. So, lace 'em up and CHECK it out!

The smash arcade hit has been given a few new dents. Lead-footed criminals will grind your gears, not only on the highway, but the jungles and snow choked mountains as well.

THE GAME DOCTOR

Qs & As to Go

Welcome back to yet another visit with EGM's Game Doctor. This month we have an addition to the Game Doctor's envelope art competition. If you recall last issue, we ran both the winning art for the Draw the Game Doctor contest and for the envelope art competition. Roberto Rodriguez receives runner-up for his creative envelope.

By the way, Roberto says he's looking for a job creating characters for video games and seeks advice. I'd recommend taking as many art courses as possible, especially those geared toward continuity art—animation, comic books, etc. Video games require that you not only draw a character once, as in illustration or fine art, but from a variety of angles.

Thanks again to everybody who contributed to our art contests.

Q: Why doesn't somebody, like the wizards at Capcom, make speed-up boards for home systems like they do for arcade games?

Travis Milburn
Terre Haute, IN

A: Many problems here, Travis. Nintendo doesn't like folks fooling with their technology, as Galoob can attest (even though it won the nationally publicized suit). Also, the board would have to have compatibility with all subsequent software, and another question that would have to be answered is: how many companies would be willing to play along?

Remember, an arcade machine is a single game, whereas systems like the Super NES must play many, many games. I just don't see this happening in the foreseeable future.

Loved your envelope art, by the way, Travis!

Q: Can you play a Turbo Duo CD game on the Sega CD peripheral? I read in EGM's Buyer's Guide issue that the Duo is capable of playing a 2 megabit CD game and the Sega CD is capable of playing a 6 megabit CD game. Because of this, the Sega CD should be able to play the Duo games, correct?

Socheath Tes
Lawrence, MA

A: Memory alone doesn't produce compatibility. CD programs created for the Macintosh can't be run on a PC-based CD drive, because they use different formats. Similarly, Duo and Sega CD games employ different systems for running their programs.

CD games are not interchangeable between systems such as the Duo.

Q&A Quickies: Mauricio Chiprut of Mexico City, Mexico, wonders when he'll see a CD drive for his Super NES. Check out the April issues of EGM and EG, Mauricio, for the full story, but I still wouldn't look for it much before '94... Jean Gagnon of Montreal, Canada purchased the Japanese version of the game released in this country by Konami as *Cybernator*, but doesn't understand why the Japan game was from another publisher. Answer: game rights are often sold on a country-by-country basis. Until next time, Acha!

LETTER OF THE MONTH

Roberto Rodriguez was the runner-up in the envelope art competition.

CYBORG JUSTICE

Enough legs, torsos, and weapons that you can make 256 different Cyborg disposers of destruction and rehabilitation. (That means pain.)

Arcade mode. Where two players team up to teach an army of Cyborgs a little respect. This is best done by ripping off their arms.

If they still don't get it, teach their enemy, then plant a spiked floor or two in a place that spiked feet shouldn't ever be.

Two players, head to head can fight, saw, and beat each other to death over and over again. You shouldn't try this without the game.

INTERNATIONAL OUTLOOK

INTERNATIONAL NEWS

By Terry Aki

Greetings once again to all you aficionados of the world of Japanese gaming. To begin today's topic, I would like to start off by talking about the differences between the Japanese Mega CD and American Sega CD system games.

For those who really enjoy a lengthy RPG, especially on a CD system, the Mega CD has really got Japanese players covered with games like 3x3 Eyes, Dark Wizard, Illusion City, Detonator Organ, plus the new Arcus III. But try finding a good RPG on the Sega CD and what do you find? Nothing. Oh sure, Sega of America has plans to bring Dark Wizard to the U.S., but nothing has been finalized.

Why the big delay? Granted the language translation can be time consuming, but why not simultaneously create both the U.S. and Japanese versions? It would really help cut the stagnant sales of the Sega CD and give many American players exactly what they've been waiting for.

12 MEG

CARTRIDGE

The long wait is over! Finally, the sequel to the ever-popular journey of Adol has arrived in the fourth book of Y's! Though the pix of the PC-Engine SCD still have to come into light, the 12-Meg Super Famicom version is already in progress!

Adol is back in action; this time his ventures will land him in a plot that involves the mysterious Mask of the Sun. It is an intense race against time, as the evils of the land close in on our hero's quest to stop him in his tracks. New enemies will be encountered as well as some old friends, such as your long-time love Lilia and your close friend from Esteria, Dogi.

For all those who were upset at the side-scrolling third installment, you will be happy to see that the original 3/4 overhead is retained! The magic of Y's has finally returned! More on this later.

Adol has just entered a village raised high in a forest, what will he find?

Outside of this town is a massive valley containing more adventures!

Enter the vast caverns in search of clues that will let you proceed further!

WAY OF THE NINJA

Ninja in Training!

It's going to take more than a couple of jumping jacks to prepare for this adventure! After all, no one ever said being a ninja was easy. Learn how to deliver killer blows with your trusty sword and send a barrage of throwing stars at your enemies. Explore dungeon mazes and battle giant rats, toxic worms and super leeches that call these caves home! Snoop on your enemies as you explore the countryside, but watch out for bushwhackers eager to steal your gold. If you train hard and master the ninja arts you may live long enough to exact revenge on the warlord that killed your family. One final word of advice: "Quiet ninjas live longer."

DOLL CRAZY!

Japan has been doll crazy lately! It's not too difficult to find dolls in the shapes of top-selling game characters in stores around Japan. Oh sure, many of you have been sleeping with teddy bears and the like since you were wee tykes, but I'll bet you have never had dolls like these!

Street Fighter II seemed kind of a natural setup for cute and cuddly dolls to be produced. Well, Capcom of Japan is introducing stuffed dolls with the likenesses of Balrog, E. Honda, Ryu, Chun Li and Blanka. Now you can cuddle up next to Chun Li or stroke Blanka's electrifying hairdo!

Not to be outdone, Sega will be introducing stuffed toys of Sonic and Tails! No word as of yet whether or not these toys will reach American shores.

I bet you'd never think that these guys were so cuddly!

The popularity of Sonic and Tails is exploding into the toy market.

An adventurous quest of epic sizes is coming to the Super Famicom compliments of WolfTeam of Japan. This new RPG is set in a medieval land immersed within a mysterious plot. Evil beings of legend and lore have started appearing throughout the many towns, leaving death and destruction in their wake. It is up to a young warrior named Duke to save his people from the grip of darkness.

Similar to Soul Blazer, Neugier combines action with an intricate plot line to create in whole, a satisfying quest. It will probably come to these shores, and if it does, anyone interested in this type of game should check it out. You won't be disappointed with Neugier, it's a good quest.

Journey to distant lands on your ship, while avoiding sea monsters.

Your ship has sunk, and you have landed ashore weak and weary.

CONTROL YOURSELF!

So you say that your controllers just aren't comfortable enough? Just take a look at the Ascii Stick controller and you'll wonder what you've been missing all this time! This little hand-held wonder fits comfortably in the palm of your hand for easy use yet features all the components of their standard sticks like auto-fire capability!

On the top side of the unit you'll find the directional pad and the Left and Right buttons, now rounded, and the Start and Select buttons at the top of the unit.

Turbo control can be modified by the row of switches near the front. The bottom of the controller has the A,B,X,Y buttons arranged in a pattern to easily access them by touch. The B and Y buttons have a raised portion, while the X and A are normal. This joystick is great to use for heavy-duty RPGs but lacks stability for high-speed fighting games like, say, Street Fighter II.

The Ascii Stick is quite comfortable to use, especially for RPGs.

The bottom of the stick holds the buttons for easy finger access.

Natural disasters always hit unexpectedly, and in this case it was no exception. The plot has you on a pleasure cruise turned deadly. The storms around ship picked up, and a giant tidal wave has struck the vessel broadside. Immediately the Septentrion (the boat) capsized, tossing all its occupants around. As it sunk, it generated a gigantic whirlpool, and now it is a race against time to escape the sinking ship before you end up in a watery grave.

Septentrion is a fresh idea that should be seen at all costs. Its dramatic use of Mode 7 is amazing to behold. This is a good example of combining action with mystery. Hopefully it will be brought to these shores, as it looks really good!

Your hapless vessel is capsized by an oncoming tidal wave!

Better hold on tight! Everything's turning topsy turvy.

Follow the lady deeper into the hull of the ship. She's got some good ideas.

While there is a brief lull in the tide, try looking around for useful items.

Rockman (Mega Man) is coming back to the Famicom again. Now in the progress of being programmed, Rockman 6 could be as good, and most likely better, than its predecessors. Like with part five, Capcom is having a contest in Japan to create the new bosses. Some lucky player/artist will have some of their characters in the game.

Look here for more info on this hot cartridge.

This is the logo of the sixth game. The title screen is coming soon. Don't worry.

At least the art is done for this game. But who will the bosses turn out to be? I can't wait!

MORE SF2 GOODIES!

In the endless quest to uncover the latest gimmicks and gadgets, I have stumbled upon some Street Fighter II goodies that will have your friends drooling with envy!

The first is a set of Street Fighter II characters that are cast in pewter. This series of sets features (American Names): Vega, Chun Li, Ryu and Balrog. The second set has M. Bison, Sagat, Ryu and Chun Li. It seems kinda cheap that they would throw in two of Ryu and Chun Li, but they are in different poses. I would like to have seen Guile or Blanka, but who cares, these characters look good anyway! As a final note, if you happen to find these at a Japanese retail store, pick them up because they're really flying off the shelves!

An all-out battle is being brought out by Sega of Japan. Called Esperanza, this game focuses on fast-paced, hard-hitting action. The main character is a young man who is part of an anti-terrorist group. Armed with a gigantic Assault Suit, he must fight his way into a number of enemy strongholds protected by the most advanced weapon systems.

Non-stop action awaits our hero, and only fast reflexes and super power-ups can save the day. Hopefully Sega will bring this awesome shooter to these shores.

The enemies have Assault Suits too, so the odds are against you.

After being dropped behind enemy lines, our hero begins his mission.

You'll have to fly into the very center of the enemy complex.

Join Doremon, a strange little critter as he explores seven levels packed full of adventure. Though this game is only 4 Meg, it looks great. The game play is similar to the style of the Mario Bros. games. The main character is animated with little personality quirks, and the comical theme is predominant throughout. It is unlikely that this game will come to our shores, but if it does, it's one to look for.

The atomic section is filled with danger, not to mention radiation. Ouch!

Times will get tough for Doremon as he bounces around in the Land of Time.

STAGE AND AREA SELECT

Are you finding the enemies in the newest of the Turtles games to be just a little too difficult to finish in one sitting? Or maybe you are tired of starting the game all over again after running out of continues. This new code will give you the option of selecting

from any stage and area in the game. First, wait for the Konami logo. As soon as it starts forming on the screen, put in the second code. Press these buttons in this order: C, B, B, A, A, A, B, C. Make sure to do it quickly enough before the Konami logo disappears. If

you are not quick enough, the code will not work, and you will have to start over again from the beginning. Now press START. The title screen will show up. Now at the title screen, quickly press these buttons in this order: A, B, B, C, C, B, A. After you do this, press the START button on the 1 or 2 player option. A screen will appear that allows you to

choose your stage and area to start on. After you choose your starting place, press the START button. You will now be starting at the beginning of the stage and area of your choice. You can even start at the last area with the infamous Super Shredder. Take on this super boss and save Manhattan from a horrible doom.

As the Konami logo appears, put in the first code.

The title screen will appear. Do the second code here.

A stage and area selection screen will now appear.

Take on the infamous Super Shredder in a deathly duel!

STAGE SELECT, INVINCIBILITY AND SOUND TEST

Normally, you would have to complete multiple missions to get any further in this space flight combat simulation. But, this trick will give you a new, awesome option screen. To get this to work, you must go to the title screen that allows you to choose the start and continue options. At this screen, press these buttons in this order: B, A, B, Y, B, Y, L button, A, R

button, A and START. After you do this, you will see a brand new options screen that will allow you to select your series and mission, turn invincibility on or off, and choose your song and your sound effects selection. This trick is great to access any area of the game and to practice your skills as a pilot with the invincibility option.

On this screen, enter the code with the buttons and START.

A stage select and invincibility option screen will appear.

SKIP THE FIRST FOUR STAGES

You can do this trick in the practice, easy or hard mode. It is suggested that the practice mode be used, because it gives you unlimited potions. So, choose the practice mode at the title screen. Start the game, then walk right and down the stairs onto the platform. Continue right until you reach a small floating platform. Jump onto the platform and use

the potion for a portal (the one circled on the top right-hand picture). It is the only potion you can use from the choices. When you use the potion, it will make a thunderous sound. Once you do this, you will have access to all the weapons, and be able to go into every level, even the last four stages.

**TRICKMAN'S IN THE SLAMMER!**

Well, not quite yet, but our feve messenger of mirth has again gone out and gotten another speeding ticket. Yep, two in two months! This time it seems that he forgot to turn on his radar detector, so as he was tooling down the highway he got nailed big time by the boys in blue. All of his charm, personality and promise of printing an SF2 Boss code just didn't work. Besides, the cop said that he only plays the Genesis. Trickman did score points and got his speed lowered when he told the policemen about the Genesis SF2 CE version coming in June.

Remember, if we use your trick, you'll be immortalized in the pages of EGM and get a game for your favorite system! Trickman needs your help! Send your gaming goodies to: Tricks of the Trade, Sendal, 1920 Highland Avenue, Suite 222, Lombard, Illinois 60148.

NEW SOFT NEWS

There sure is plenty to talk about this month so I'll get right to the heart of it! There is no need to break out the dusty Atari 2600 to play your favorite games anymore! Activision has announced that they will be doing Super NES versions of the classic hits like River Raid, Kaboom and Pitfall! Bet you never thought you'd see these games live again, and frankly, neither did we!

Electronic Arts has another assortment of games coming our way. Bill Walsh College Football features 48 college teams with variable weather conditions and classic teams from past history. General Chaos is an interesting war-strategy game with comical fighting sequences.

Accolade has their lineup of sports games, too! Brett Hull Hockey features the popular player with Mode 7 rink effects and realistic movements of the players. Al Michaels will be announcing this game, but his voice will be less choppy. Pelé Soccer stars one of the greatest soccer players ever with unique Mode 7 field effects with a 3/4 perspective of the field for a better view of the intense soccer action!

However, one of the greatest surprises is the update to the awesome Phantasy Star series. PS IV has the same awesome combat as PS II but offers a longer storyline and even more enemies than ever before!

PHANTASY STAR IV

GENESIS

8+ MEG

CARTRIDGE

Enter the city and talk to the people. Here you will gain a lot of information.

The epic struggle of good versus evil continues in Phantasy Star IV. First there was Alis in a quest to free her land of the many terrors that roamed free. Then it was Rolf, a government agent who was to find out what was wrong with his planet's computer, Mother Brain. He and his party were pursued as criminals by robotic hunters, as well as vicious Bio-Monsters. The third installment in this epic series was so large that it spanned three generations! In that quest, the family line of heroes joined forces with the cyborg Wren, and many others to stop the most hideous source of all evil: Dark Force. The Dark Force was seemingly destroyed, but was it? Our new set of heroes will travel through several immense worlds each with several continents. The battle scenes in this version are like the second, as is most of the quest. This game is bigger than all the ones before it. The extra memory will also allow this version to have more animation, better music and a much longer quest.

It is always good to remember certain landmarks, especially in a large world.

Talk to the king who lives behind the walls for one of your quests.

This is just a glimpse of the brave new warriors within Phantasy Star 4.

Is the vile Dark Force back to wreak havoc upon the new world?

Take a Drive Off the Deep End with Road Avenger!

Take it to the extreme. Road Avenger for the Sega CD gives you the license to do whatever it takes to wipe S.C.U.M. (Secret Criminal Underground Movement) off the highway. Ever smash a car through a hotel lobby? Spin off a bridge at high speed? How about tearing up the beach on the tail of perpetrators? Now's your chance! Gear up for the ultimate hot pursuit. Road Avenger, so much fun it should be illegal!

- Full CD soundtrack!
- Digitally recorded stereo sound puts you right in the game!
- In your face close-ups!
- Over 30 minutes of full motion animation!
- Heads-up-display keeps your eyes on the action!
- Nine rubber buming stages!
- Head spinning 360 degree scrolling!

Road Avenger fills your tank with high octane action! Forget the insurance, full speed ahead to your nearest Sega CD retailer!

ALIEN 3

SUPER NES **UNK. MEG** **CARTRIDGE**

Ripley has crash landed on Fiorina 6, a penal colony. Unknowingly bringing the alien menace to the planet, Ripley must free the prisoners she has put into peril. Armed with a variety of weapons ranging from a pulse rifle to a grenade launcher, she will have to fight hordes of slime covered xenomorphs. Fierce alien warriors will halt Ripley's progress if they can.

While based on the third movie, the weapons from the second are here to create a spine-tingling adventure. The levels vary from a slaughter house to the lead works. This game recreates the chilling mood of the movie. It's up to you to end the nightmare once and for all.

Shoot the facehuggers before they attach to you, or you will die!

The ventilation ducts hold many terrors. You must be brave!

The alien warriors crawl undaunted through the penal colony.

CARTRIDGE

Electronic Arts has just created a spooky new cart called Haunting. The main character is a young Frankenstein Monster, and he's got a bone to pick with the Sardinis family. You see, they axed him a long time ago, and now he wants revenge. So what our young ghoul does is chase the Sardinis from house to house, frightening them away from their homes and businesses.

With a comical approach, Haunting creates a good ol' time by letting you scare the pants off some bad guys. For even more laughs, you can have two players haunting away. Sooner or later the Sardinis catch on to your plan, and that's when the trouble begins. Will you stand a ghost of a chance in Haunting?

Chase Vito Sardini through the garage and out the door.

Check the map to find out where the whole family is located.

WWF Royal Rumble is a wrestling fan's dream come true. All of your favorite wrestlers are here, like Hulk Hogan, Brutus "the Barber" Beefcake and Mr. Perfect. Recreate the havoc of your favorite Royal Rumble. Can you throw the other WWF superstars out of the ring? Or if you want, you can have a straight match against a friend or the computer in an all-out bash! Speaking of bashing, once out of the ring, anything goes. Your wrestler can pick up chairs and other heavy objects to totally pummel your adversary. You also have an assortment of special moves, too! Two-player fighting action is definitely a plus, as this game goes above and beyond its predecessor in every way.

A Royal Rumble at its finest! It's a fight to survive in the ring.

Mr. Perfect picks up a chair! Will he bash the poor guy over the head?

GENERAL CHAOS

GENESIS 8 MEG CARTRIDGE

A new type of military simulator/action extravaganza is here. Entitled *General Chaos*, you lead your forces through a variety of terrains, and shoot the enemies as they attack. Choose from several combat teams ranging from blood thirsty commandos, to the standard grunts. Strategically place your troops, load up your large arsenal of weapons, and engage in land combat. Special items like the rocket launcher can turn the tide of battle, making a sure win into a devastating defeat. Control your soldiers in the midst of war, letting your fast reflexes take hold. *General Chaos* molds together the two themes almost perfectly to create a new concept.

Utter chaos will erupt upon the battlefield in non-stop action.

Choose your team that will go up against the enemy forces.

The story unravels within the war room. Check out the graphic cinemas.

The *Golden Axe* series has always been known for its sword-swinging action, and the third game in the series is no exception. Boasting superior graphics and sound, this game may prove to be the best *Golden Axe* yet! Four brave heroes have stepped forth to combat the many magical beings that have suddenly started attacking the realm. The Barbarian and the Amazon are back along with a brand new Lizard man and also an Ogre. Sorry Dwarf fans, that character is not here. With this sequel comes more moves and spectacular magic powers. They are a sight to behold. Fans of *Golden Axe* take note, you won't have long to wait for one of the best hack-and-slash games ever.

Each character has a special move that can maul an enemy.

Hacking and slashing in this *Golden Axe* has never looked better!

2020 BASEBALL

SUPER NES 12 MEG CARTRIDGE

Those of you who are familiar with the Neo-Geo know that 2020 Baseball is one of the best baseball games on the market. Now a wonderful translation of this fine game of baseball is heading for the Super NES. Very few elements from the original have been taken out, so this translation is as close as you can get. A few of the voices are missing, but all the sports fun is still here! When there is a special play, the camera zooms in on the animated sequence! To add to the excitement, land mines are placed in the outfield! Your players can be male, female or even a robot! Is 2020 Baseball the future of America's favorite pastime? Who knows? But you can play it now.

It doesn't matter who you are: man, woman or robot, you can all bat!

Extra special moves are zoomed in to show the fast-paced action!

If you do a great job your player will get an applause from the audience.

BIO-METAL

SUPER NES

8 MEG

CARTRIDGE

That awesome shooter Bio-Metal is finally coming to the States, compliments of the folks at Activision. This intense shooter has you taking the battle to the alien forces before they could reach Earth and her colonies. Your ship is an advanced prototype, untested in combat, but our best bet in destroying the alien armada. It is capable of being powered up with special icons found throughout the battlefield, that give it massive firepower. Your ship will need all the power it can muster, as the enemies are plentiful, not to mention very powerful. The bosses and mid-bosses are really gigantic, and will possibly destroy your ship. Can you take control of Bio-Metal, the first cybernetic fighter ship?

Fly through the night sky while avoiding plasma blasts and bullets.

The mini-bosses are tough and vicious. Better keep your distance.

SUPER AIR DIVER

SUPER NES

4 MEG

CARTRIDGE

The long-awaited sequel to the classic Genesis shooter is here! This time it's slated to come to the Super NES, and it looks hot! Super Air Diver, like its predecessor, will contain fast-paced aerial combat thanks to Nintendo's DSP chip. Looking much like Pilotwings, Super Air Diver holds much promise. The enemy jets are not simple mindless drones, but combat-ready aces! The control will be topnotch, and the dramatic use of Mode 7 will simulate the skies of the world. Anyone who has ever dreamed of flying an elite fighter will thrill to the sheer realism of this cart. From the swarms of fighters to the dog-fights, you will be impressed. Super Air Diver is definitely a worthy sequel.

Fly in low over the cityscape. Blast any enemy you encounter!

The ocean carries some of its own dangers. Beware of a quick death!

EXILE 2

DUO CD CD-ROM

The Templar Knights return in Exile 2! Join the lone warrior Sadler as he once again must free his land and its people from oppression. Sadler's journey starts once he leaves the confines of the town. Once he is out into the wastelands he will meet creatures such as the vicious scorpions. To aid in his quest, he will befriend some fellow adventurers. Sadler will learn magic, and gain the use of mystical weapons and objects.

This enhanced sequel has music even better than the first! The cinema displays are done really well, and help bring this adventure alive for the player. The action scenes are done well, too. A good action RPG.

The graphic cinemas of this game are enhanced over the original.

Stock up on weapons and supplies before leaving the town's safety.

Fight your way across the treacherous wastelands in search of an oasis.

IT HAD TO HAPPEN,
AND NOW HERE'S THE
FIRST INSIDE LOOK AT
THE HOTTEST GAME EVER...

STREET FIGHTER II CHAMPION EDITION

GET LOST, YOU DON'T COMPARE TO MY POWERS!

Before we begin the remarkable journey down what could be the game of the year, I would like to take the time out to thank Laurie Thomson, James Goddard, and the rest of the helpful staff from Capcom. Their time and input are what made this piece possible. Now Genesis owners everywhere will have the opportunity to play the game many Super NES owners have dreamed about for months, Street Fighter II: Champion Edition! Hold on to your seats!

Since the Genesis version is based on the Champion Edition upgrade for Street Fighter II, it would be a good idea to focus on the truly excellent differences between Champion Edition and the original version. The following pages are a compilation of the major changes between the two.

The first major change anyone can see is the addition of selectable boss characters at the warrior select

screen. This effectively adds four new characters for you to choose and master! Another big enhancement is the ability to play same character versus same character matches. In fact, even if you fight against the computer exclusively, you will still have to compete against a mirror image of yourself! To top it all off, each character was redrawn with more attention given to detail and shading. Characters like Guile, Ken and Ryu are noticeably buff in Champion Edition! Even the large portraits were redrawn, eliminating the kiddish qualities, and adding to the personalities of the World Warriors (Ryu has a 5 o'clock shadow, Guile looks hardened, and Blanka looks even more bestial). Of course, M. Bison's beat-up portrait had to be added as well.

After the preliminary details, the major programming changes are revealed in the game play. Now it's

much harder to dizzy opponents. Attacks do less damage each time they're used, so it's a good idea to use a variety of techniques. Certain characters were sped up considerably to even out their abilities. Ken and Ryu were modified to differentiate their personalities and power. Now picking between the two requires an actual decision! New attacks were added, like Chun Li's two new kicks, and Guile's thrusting knee. Other attacks were modified, like Dhalsim's Spear, Zangief's Lan- at, and E. Honda's 100 Hands, to name a few. What could be next?

The following is a key to the symbols used for joystick motions and button pushes throughout the rest of this article:

U=Up, D=Down, F=Forward, B=Back, C=Charge for 2 seconds, K1=short kick, K2=forward kick, K3=round-house kick, P1=jab punch, P2=strong punch, P3=ierce punch, CB=Charge Back for 2 seconds, CD=Charge Down for 2 seconds, DB=Down and Back, DF=Down and Forward, UF=Up and Forward

This shot is from the arcade version of Street Fighter II Champion Edition.

You be the judge! This shot is from the Genesis SF2 CE. Which do you like best?

This shot shows the Super NES SF2 using the Player vs. Player code.

MY FISTS HAVE YOUR BLOOD ON THEM.

Balrog has a headbutt that really packs a wallop! Press F+P3 while close.

Balrog's lunging hook punch hits ducking foes every time - CB, F+P3

For a powerful lunging uppercut that pummels air attacks, press CB, F+K3

The turn-around punch really evens the odds! Press P1+P2+P3 or K1+K2+K3.

BALROG

This Las Vegas fighter is battling for the American Dream of being the best warrior in the world.

VEGA

Vega wants to vanquish all the ugly contestants in the Street Fighter World Championship.

Vega has an air throw - F+P3 while close in the air.

Vega can bounce off the wall better than Chun Li.

Vega's backdrop hurts! Press F+P3 while close.

The swan dive is good on slow foes - CD, U, F

Use the backflip to avoid attacks - B, B quickly.

The air drop is deadly if perfected - CD, U, F+P2.

HANDSOME FIGHTERS NEVER LOSE.

VEGA'S ROLL IS A GUARANTEED FOUR-HIT WHEN USED UP CLOSE!!

Each frame of animation counts as a hit, but he can be swept. CB, F+P3

**YOU'RE NOT A WARRIOR,
YOU'RE A BEGINNER.**

Sagat has a new deadly throw! To give your foe a heave, press F+P3 when close.

Sagat has a double-hit Tiger Knee! It's great on dizzied foes - D, DF, F, UF+K3.

LOW

Sagat has two levels of Tiger Blasts! High - D, DF, F+P; Low - D, DF, F+K.

Sagat's Tiger Uppercut doesn't make him weak on the way down now - F, D, DF+P.

SAGAT

Sagat dreams of defeating Ryu in combat and regaining his title as Street Fighter Champion.

**GET LOST, YOU DON'T
COMPARE WITH MY POWERS.**

M. BISON

Major Bison is a dictator who will rule the world unless defeated by the World Warriors in combat!

M. Bison has the most powerful throw of all the World Warriors - F+P3 when close.

M. Bison's Head Stomp can hit twice as well - CD, U+K (1st hit), F+P (2nd hit).

M. Bison's Scissor Kick hits twice! Add a low forward for 3 hits - CB, F+K3.

The Flaming Torpedo is deadly against blockers and most air attacks - CB, F+P

FIREBALLS PASS THROUGH RYU'S HURRICANE KICK!

By waiting until the last possible moment, Ryu can surprise a persistent fireball thrower by passing through the fireball! It only works at the start of the spin.

Ryu has stronger attacks, a faster fireball, and a devastating, powerful Hurricane Kick that knocks players down in one hit! He is still as slow as he was in the original version.

Ken has been enhanced with a wider Dragon Punch, a fast Hurricane Kick, and has been given more quickness overall. His best techniques are the Triple Dragon Punch and the deadly Eggbeater.

A TRIPLE DRAGON PUNCH? AN EGGBEATER?

Tap fierce the instant before doing a fierce Dragon Punch!

Perform a roundhouse Hurricane Kick as your foes start to rise!

GUILLE'S FIERCE FLASH KICK NOW HITS TWICE!

Guile's Flash Kick is even more fearsome now that his Fierce Flash Kick hits twice! Short and Forward hit once. This will sure spice up old combos!

Guile has a new enhanced Flash Kick that hits twice when the Roundhouse button is used. He also has a new "knee thrust" (shown above - F+K2) that leaves him wide open to attacks.

CHUN LI

Chun Li has been sped up just enough to make her the hardest character to catch! Her Wind Kick releases and stops faster, and she has two new kicks to add to her wild acrobatic style.

CHUN LI HAS TWO NEW KICKS FOR YOU TO MASTER!

While near your opponent, press F+K3 to do an over-the-top knee.

While near your opponent, press F+K2 to do a backflip kick.

BLANKA

Blanka doesn't take much damage when hit in his Roll Attack, and he can Shock opponents much faster now. His recharge time for multiple Rolls has been tightened up to make it easier.

BLANKA NOW HAS A DEADLY SHOCK COMBO!

Blanka can now do a jump strong, strong shock combo by pressing rapidly on the strong button on the way down from his jump. Ouch!

E. HONDA

The champion Sumo wrestler is faster, stronger, and has a better defense than before! His Sumo Torpedo is VERY fast, and he can walk while performing his 100 Hands Slap!

YOU CAN WALK WHILE DOING THE 100 HANDS SLAP!

Just push forward while doing the 100 Hands Slap to slowly creep forward. Beware! Any low jab will stop E. Honda's 100 Hands Slap now.

MOVING LARIAT! BIG BOUNCE OFF SCREWDRIVER!

Walking with the Lariat Punch is a good way to knock some sense into persistent fireball throwers, and it's also a good way to escape a foot sweep.

F+P2+P2, THEN F OR E TO MOVE

The large new bounce after a Spinning Pile Driver, or Screwdriver, was designed to fling the fighters apart so Zangief can't cheat.

E, E, E, D, D, F, UP+P

ZANGIEF

Zangief has been given the ability to move while performing the spinning lariat, and his defensive power has been greatly strengthened. Overall, his Spinning Piledriver range was increased.

DHALSIM

Dhalsim just isn't as lethal as he used to be, even though he has been improved. Both spear moves have been modified, and can be executed anywhere in the air, not just at the top of a jump.

YOGA FIRE

YOGA FLAME

YOGA NUGIE

YOGA THROW

DO EITHER SPEAR ATTACK AT ANYTIME!

To do the spear moves at anytime, press D+P3 or D+K3 while in the air. The Yoga Spear is good against air attacks, while the Yoga Mummy hits low.

YOGA SPEAR

YOGA MUMMY

THE RANGE OF EACH MOVE HAS BEEN RECALIBRATED TO REFLECT THE ONSCREEN IMAGE...

Notice how the "attack burst" now hits the middle of the car. The range has been extended by

nearly an inch. Before Champion Edition, your foot would pass harmlessly through the car!

As you play, you may notice how certain hits have a longer, or possibly shorter, range. One fine example of range tweaking is Ken and Ryu's close Roundhouse Kick, commonly called the Axe Kick. This double-hit move could not strike the damaged car in the original version of Street Fighter II, but now it can. The range of this move has been increased to reflect its actual length. Other attacks, like Chun Li's low Roundhouse, have been shortened to the proper length as defined by the onscreen image. This has increased the overall playability and number of advanced techniques available to expert players. Good job, Capcom!

HERE'S HOW TO STAY IN CONTROL...

Now that it's official, kids across the country are curious as to how Street Fighter II will be controlled with only three buttons. To be honest, this is one of the most innovative, and sadly, most aggravating problems the Genesis has faced with Street Fighter II.

The most obvious solution is, of course, a new six-button controller for the Genesis. In fact, both Sega and Capcom are creating six-button controllers for the Genesis as you read this! The Sega controller will be a pad style like a normal Genesis controller, but with three new buttons, labeled X, Y, and Z. To maintain control pad compatibility with past games, the addition of a MODE button will be necessary. The Capcom controller will be designed as a joystick similar to the Super NES Fighter Power Stick. One main difference is that the stick will have

the MODE button to toggle between three-button and six-button modes.

Of course, what about the people who can't afford to blow big bucks on two new controllers (including myself), how will they be able to play Street Fighter II? Many rumors have floated around about Capcom opting to go with the button-timer technique TTI used when developing the Fighting Street CD years ago. This method uses two buttons; one button is for punches, the other is for kicks. To differentiate between the three strengths of punches and kicks, the player would have to hold down the button for a specified length of time to achieve the desired effect. The longer a button was held down, the stronger the attack. Fortunately, Capcom realized that this method severely damages the ability to perform the devastating combos possible in Street Fighter II and opted to go with the toggle method.

The toggle method will use the Start button as a switch to exchange between punches and kicks. In the standard position, the three Genesis controller buttons will perform as jab, strong, and fierce punches. With a quick press of the Start button, they will become the short, forward, and roundhouse kicks. This method will insure that the timing will remain relatively unchanged. This is, unfortunately, very cumbersome, and it still

is not smooth enough to play like the arcade. Punch-kick combos are nearly impossible while using the three-button mode. This method also won't allow pausing in a game!

After testing the various options, the only real option is to go out and fork out the extra dough for the six-button controllers. The real decision will be whether or not to wait until several controller companies (such as C&L Controls, etc) decide to create their own six-button controllers for the Genesis. Odds are, many of these controllers will use actual arcade parts that will last much longer than either the Power Stick or Sega pad. The feel will also mimic the arcade as well. If money is an issue, you may want to start saving now, because future games may also use the advanced capabilities of the six-button controllers, and you don't want to miss out on any of it!

Sega is on the way to making a 6-button pad like this Japanese controller!

Look out! A new Capcom SF2 controller is on its way to the Genesis homefront!

WHAT ELSE HAPPENED AT THE SEGA/CAPCOM PRESS CONFERENCE? THOUGHT YOU'D LIKE TO KNOW...

Just when you thought Sonic and Chun Li would be duking it out, they're quickly becoming friends!

Surprisingly, Capcom and Sega had a 75% complete prototype at the press conference, with a six-button pad!

Of course, with the introduction of a six-button controller in Japan, word was a-buzz about Street Fighter II for the Genesis. Rumors ran rampant, and Capcom even went so far as to completely deny that Street Fighter II would ever be released for any system other than the Super NES. It was a grand surprise to learn that not only was SF2 being released for the Genesis, but it would be the Champion Edition, not the original! In fact, the prototype at the conference was playable, with only a few backgrounds, endings, and tweaking left to be completed. As you read this, the production version should be finished!

These reviews are based on an early test copy of SF2 CE for the Genesis.

ED

This is the game worth waiting for! Street Fighter II CE for the Genesis was everything I had been hoping for. Although it was only 80% complete at the time, this version had much to offer. While the animation and sounds may not have been up to par with the Super NES version, the remaining 20% will hopefully solve this problem. The combo moves are easy to execute and playing as the bosses is the best part of all. Overall, Street Fighter II CE is a great effort between Capcom and Sega!

KEN

After several hours of die-hard game play, I was very impressed. Even though this version was only 80% complete, it played better than the arcade version! Bringing it on the Japanese version was a smart move, as it adds several elements missing from the U.S. game. The combos (including some new ones) are all intact, and I trust that the sounds WILL be improved over this prototype. The colors, detail, and animation may not be as smooth as the Super NES SF2, it is more complete thus far.

BEHIND THE SCREENS

AN INTERVIEW WITH ARGONAUT SOFTWARE --

The inventors of Nintendo's Super FX Chip and the designers of StarFox!

Editor's note: EGM orchestrated the following exclusive interview with Jez San at the Argonaut Software development studio in London, England.

EGM: How did the Super FX (SFX) chip and StarFox projects come about?

San: It started before the Super Nintendo actually came out. The Super Nintendo consoles weren't designed to run 3-D games. We received a SUPER NINTENDO prototype machine in summer 1990 and within a week we had a sort of Battlezone 3-D game, working on it.

We showed Nintendo and they weren't too impressed. To improve the game, we realized that we

needed a hardware boost. Nintendo showed us the DSP chip used in Pilotwings. We evaluated the chip and decided it was really only a math engine - it couldn't accelerate graphics, sprite rotation, etc.

After negotiating with Nintendo of America, they agreed to fund our development of the SFX chip.

It took us about a year to design the prototype chip here. Then it took another year for the production engineering, which was done in Japan.

The SFX chip costs more than \$1 million to develop.

Jez San, Managing Director of Argonaut, gives some insight into the SFX chip.

EGM: And then came StarFox?

San: StarFox was a joint development between us and Nintendo from the very beginning to the very end. Argonaut did all the programming and Nintendo handled most of the creative stuff like artwork and music. We jointly developed game play.

A lot of Japanese players don't appreciate 3-D games, so Nintendo hoped to turn their heads with StarFox.

Shigeru Miyamoto, designer of Mario, Zelda and now StarFox, is a brilliant game designer. StarFox is his baby, and the quality shows.

Every level of StarFox is designed to try out another idea on 3-D. I call one of the levels "Tetris from Hell" where there's blocks coming at you from all sides, and you've got to try and stay in the center and dodge them. It's very exciting to play.

EGM: Is it true that the SFX chip was originally dubbed the "Mario" chip?

San: The Mario chip was our code name for the SFX chip before it was built. It was

a joke name, obviously. The name did stand for something, though - Mathematical Argonaut-Rotation (O) chip. That was a way of working our name in but Nintendo thought it might cause some confusion because the Mario game series is something completely different from the Mario chip. SFX is a better name anyway. Editor's note: The Super FX chip is still labeled as Mario on the Japanese circuit board.

EGM: What SFX games will we see next?

Sam: That's entirely up to the designers and programmers and their imaginations.

Since F-Zero first introduced Mode 7, there have been several similar racing games. With the high expectations we have for StarFox, I'm sure there's going to be more "me too" space shoot-'em-ups.

Other 3-D games on the Super Nintendo are weak in comparison to

"Every level of StarFox is designed to kind of try out another idea on 3-D. I call one of the levels "Tetris from Hell" where there's blocks coming at you from all sides, and you've got to try and stay in the center and dodge them. It's very exciting to play that level." -Jez San

StarFox, so Nintendo has decided there's no point in releasing watered-down 3-D games that don't use the SFX chip. Nintendo doesn't release a game unless they feel it's going to be a hit. They develop far more games than actually come out.

There will probably be a StarFox 2. Nintendo has definitely said StarFox is the first in a series of video games using these characters.

Future SFX games will probably have more texture mapping. StarFox is just a taste of what's to come.

EGM: Do you have any more chips like the SFX in the works?

Sam: Sure we have hardware development and we're busy working on other things. We can't talk about these projects but you'll see them in the next year or so. Chips take a long time to develop, and we weren't

able to start anything else until the SFX chip was finished.

EGM: What's in the future for Argonaut Software?

Sam: The long term future is CD. There are already 16-megabit games now like Street Fighter 2. In a

year's time, there will be 32-megabit games that will be even more expensive. But a single CD can hold something like four gigabits! We're doing a lot of CD-ROM development on all formats - including Sega CD, Super Nintendo CD, 3DO and lots of other formats when they come out.

We're developing motion video, compression technology for CD and

have done some CD interpretations of cartoon and movie titles. We're also working on our own original projects. We don't like to go down one alley in case it's a dead end.

EGM: Wow, it sounds like you guys are busy. Anything else?

Sam: We are doing a lot of games for T-HQ now. Kids love our Flin & Stimpzy game for Super Nintendo because of the culta animation while the adults go for its weird,

idiosyncratic characters.

We've done a new Super Nintendo

interpretation of Home Alone 2, too. But it's not based on the movie. We've taken the characters from the film and created a totally new game story involving them. It's probably going to be called Kevin's Dream or Kevin's Nightmare. With such a totally original interpretation of the characters, we're left on our own to do the game play. It hasn't been, "Follow the movie script or else," so we're concentrating on game play rather than license. We're doing that with a few games.

Wayne's World for the forthcoming Super Nintendo CD-ROM accessory is like a big cartridge game on CD. It's the equivalent of a 64 megabit game. When the CD-ROM machine is released, we'll put it all together on CD and add some motion video from the original movie and a lot of heavy metal music.

Argonaut Software's design team spent long hours working on the SFX chip. They're already working on new SFX games!

STARFOX

A NEW GENERATION FOR SUPER NES!

Get ready to enter a whole dimension in home video gaming! StarFox is first cart that utilizes Nintendo's revolutionary new Super FX chip. This technology allows the Super NES to handle smooth polygon graphics and manipulate multiple sprites with Mode 7! The story is simple: the galaxy is being threatened by an evil scientist known as

Emperor Andross. You must lead a group of rather strange copilots in an attack against the offending armada. There are three different attack levels to choose from, each with a variety of challenges. There is a training mode where you can get used to your ship's controls, and a configure screen for your controller. Check out this incredible cart for yourself!

THE SHOCKING KIDNAPPING!

MARIO IS MISSING!

Now Luigi Gets to Save the Day!

The hope of all hedgehogs has actually happened! Mario has been kidnapped while he, Luigi, and Yoshi were about to enter Bowser's castle! So now you have to play out the part of Luigi and try to defeat all the Koopas that are roaming the world, return stolen artifacts, and slowly work your way into the place where Mario is held captive! Let us hope that you can make a difference!

You have to enter doors that will teleport you to different cities that are dotted about the world. And, in order to clear the stages, you must defeat Koopa Troopas, and return stolen artifacts to their rightful places. You will need to learn about where you are and the artifacts you have in your possession in order to proceed. A unique game that is fun for all ages!

RESEARCH IS RECOMMENDED!

You will need to research individual artifacts to answer the questions!

A brick is missing from the Great Wall. Can Luigi find it in time?

A missing cannonball has closed down the Kremlin until it is returned.

Luigi has to locate a large item, namely an elephant from a park!

ANSWER THE QUESTIONS

Go to these booths to return the items, but you will need to have some knowledge of the item in order for the return to be accepted!

Some questions can be really tough to answer!

Some questions also have humorous overtones!

A STEP-BY-STEP TO DISPLAY HOW THE SEARCH WORKS

First, you will need to decide on which door to enter. To the left is a map of which doors lead to where in stage one.

In a particular city, you will need to smash turtles to find the ones that are carrying the artifacts. Collect and return them.

Take the artifacts to these information booths. Answer two questions and you will receive a reward!

With all the details of the city, guess where you are and have Yoshi pick you up so that you can exit the place!

After all the level doors are completed, you will need to fight a boss. Most of them aren't that hard, but they take time.

HERE ARE BUT A FEW OF THE CITIES YOU WILL ENTER!

Your mission to find your kidnapped brother Mario will take you all over the world. Pay close attention to the information you'll receive on various items. You'll need it later to get rewards for returning the item. Keep searching for clues and rescue Mario!

FEEL THE ULTIMATE IN TOTAL PAIN!

The long-awaited sequel to the popular Flying Warriors series is finally here! In this 12-Meg monster, there are two modes to this game - one is the arcade mode where you play out the actual plot and go through actual levels. The second is the tournament mode, where you must compete one-on-one with 11 other opponents. Lots of variants like a two-player mode and tons of techniques make this cart worth a look.

Many Different Fighters, Including the Flying Warriors!

You Can Take On The Forces Of Evil In The Story Mode!

Stage One

Your Sensei has just been kidnaped! Head into the Dojos and take out Iron Claw before he does in your teacher!

This tough fighter leaps through the air and attacks with his super sharp claws!

Stage Two

Clean up the beach as you head to the tournament. Change into a Flying Warrior for the boss!

Be careful of this Boss. No one is as skilled with deadly staffs and has as much reach.

Test Your Might In The Versus Mode...

Choose from 12 different characters and fight your way down the scales and onto the final showdown!

CAPTURE THE KOOKY KIWIS!

In the land of Tazmania, eating is everything to Taz and his favorite food is the Kiwi bird. To get our friend a proper meal, you must guide him down the road in search of Kiwis

to eat. Once you catch enough Kiwis, you will advance to the next stage. Unfortunately, cars, buses, telephone poles, deep water and many foes and obstacles are here to hinder our hero. Avoid these, and you'll be safe. Jump up to catch blue and red birds for energy and extra time. Use your Tornado spin for instant speed. Great animated fun awaits!

CHARACTERS AND COLLECTIBLES FOUND THROUGH THE GAME

DIGGERI DINGO

He is the ACME delivery dingo who either gives you good or bad items.

WENDAL T. WOLF

This timid wolf covers Taz's eyes making it hard to see the road.

PTERODACTYL

He swoops down on Taz and carries him to an earlier part of the level.

BULL GATOR AND AXL

These hunters are out to trap Taz. They will lay oil slicks, black holes, glue and bear traps to stop him. The game ends if he is caught in their net.

TAZMANIAN SHE-DEVIL

The female version of our hero has an eye for Taz. She'll run down the road, searching for him. If she catches him, it's game over for poor Taz.

KIWI BIRD
Catch these birds to end the level you are on.

BLUEBIRD
Catch them to replenish your energy bar level.

RED BIRD
Catch them to add 10 seconds of clock time.

SLIPCASE NEWS

IN SEARCH OF NEW PREY...

In the year 2493, the human colonists of New Shanghai on the planet Vega 4 had no idea that their workers discovered dormant eggs of a dangerous, parasitic life-form. The colonists found themselves helpless against the Aliens that formed from the eggs, and sent a distress signal for help. A passing ship of Predators heard the call, and made the decision to hunt the Aliens instead of a human colony.

You play the role of a Predator. In your hunt, you will come across

hordes of Alien Drones, eggs, Warriors, Facehuggers and Chest-bursters. Collect weapons to help you on your quest, such as the disc and spear. Items will appear after you defeat an alien. Some of these are meat, invisibility shields and Alien skulls (the trophies of the Predator Warriors). Many attack methods are at your disposal, like the grapple, elbow punch, throw, flying kick, spinning kick, slide and bounceback. Alien guardians are waiting at the end of certain levels to teach you a lesson about hunting. Defeat the big prize: the Alien Queen! Fight for honor, fight for glory, but most of all, fight for fun!

HAVE A BRAWL!

This is the year of the fighting game as there are going to be many released. *Brawl Brothers* is one hot fist fight from beginning to end. It's a two-player fighter with more moves than *Final Fight*; like body slams, leg sweeps, hooks and uppercuts. You'll need all of them for ten terrifying levels loaded with the toughest brawlers waiting for a human punching bag. If you're up for some one-on-one action, check out the cool versus mode.

BRAWL BROTHERS

LEVEL ONE

The battle begins in the metropolis where you and your fighting buddy must tough it out with thugs and other scum in the streets, bridges and a maze-like sewer system.

LEVEL TWO

It gets hotter as you must now fight your way through a jungle filled with mines and a cargo lift. These guys will now attack in greater numbers.

A map will display the current area of battle before each level begins.

CHOOSE FROM FIVE CHARACTERS EACH SKILLED WITH DIFFERENT FIGHTING TECHNIQUES!

LORD J

The largest member of the group, Lord J inflicts heavy damage upon his enemies, but is very slow-moving.

KAZAN

Skilled in many forms of martial arts, Kazan balances quickness, power and agility with his magical abilities.

HACK

One of the quickest fighters, Hack is able to beat his adversaries to a pulp with superior speed and strength.

WENDY

Although she's the smallest member, Wendy is an able fighter with her surprising strength and wrestling throws.

You and a friend can pick your favorite character and battle it out in a fierce head-to-head fighting competition!

SLASH

One of the two big men, Slash has a huge assortment of holds and throws to make up for his slow movement.

Kick Some Kilrathi Butt!

Unrivaled Super Nintendo Wing Commander Screens

More than 10 separate missions that get more complex as you progress

It's like you're the star in a deep space action-adventure movie

Wingmates like "Spirit" cover your tail as you fight the tiger-like Kilrathi

Trounce the Kilrathi and be a hero—Lose and attend your own funeral

Nothing else will have prepared you for the look and feel of Wing Commander on your Super NES.

Here's why!

Wing Commander has incredible 3-D action, full-screen explosions, 33 super stereo soundtracks and CD game quality. But it plays on your Super Nintendo.

Wing Commander is the most extremely cool, 3-D Space Combat Simulator with more than 40 separate deep space missions that progress to near suicide dogfighting with the tiger-like Kilrathi. It's like an action-adventure movie - and you're the star!

Are you up for the challenge? This award-winning megahit is now available for the Super NES. Kick some Kilrathi butt with Wing Commander.

LEVEL ONE: VEGI-LAND

The first level is rather simple. Try to get used to the controls, and see what the icons do. The area around here is very hilly, and you can lose your balance. Beware of the boss; he's a little troll with an attitude. He jumps and shoots in a certain deadly pattern.

LEVEL TWO: BLUE BEACH

The second level starts out on the beach, but after a massive tidal wave, everything is deep underwater. You'll have to experiment with the different forms that widget works best here. The boss is a gigantic slime beast and he launches smaller versions of himself at you.

WIDGET'S SPECIAL TRANSFORMATIONS!

SPEEDY WIDGET

powerful form. Be careful, as one small hit will change our hero back to his original form. Each shape has its own abilities. Just perfect for hard levels.

FOREVER ONWARD...

Later on you will find yourself in a world of giants and a land of little people. The hazards will become greater and it takes skill to beat this game. In the lava world, you must drink glasses of water to keep from burning up from the intense heat.

THE PURPLE PUNISHER!

Widget is back in business with his very own 16-Bit game. Fight your way through a colorful world of hazards and fun. Some levels even use Mode 7 to highlight the game with radical special effects. Super Widget is based on a popular cartoon. With that in mind, the game's graphics reflect the zaniness of the show.

You are Widget, a polymorphing alien who is set on becoming an interplanetary watcher. To do that,

you must explore many lands and fight even stranger aliens. The worlds you explore are filled with danger, and the enemies are plentiful. With a variety of playing fields, Widget will be one grand adventure. Will Widget be able to have his dream come true? It's up to you to decide!

MACHINE GUN

STRIKE IT UP!

The son of the Madman is back to avenge his father's death in this 16-meg sequel to Desert Strike! With the help of a powerful South American Drug Lord and his private army, they plot to build nuclear weapons to destroy Washington DC.

Now you must come out of your retirement and take out this vicious madman. Command a Super Comanche, Stealth Fighter, Attack

Hovercraft and a Special Forces Motorcycle through nine dangerous campaigns in either night or day. Rescue hostages, capture commanders, and recover stolen nuclear weapons while defeating the drug lord's army.

The battles come alive as the graphics are viewed from a pseudo 3-D perspective and the sound of the gunfire explodes with crisp digitization. Grab your helmet and prepare for battle!

SUPER CHOPPER WEAPONRY

Your Super Comanche is equipped with a powerful arsenal of weapons such as machine guns, hydras and hellfire missiles. Use them sparingly because you only have a limited supply. Should you run out of ammo, there are several ammo crates and ammo trucks located in select areas of the present battlefield. Just fly the chopper directly over the ammo and a hook will lower to retrieve the cargo.

TAKING CONTROL

When the game is paused, a view of the monitor and controls will appear. Three options can then be accessed. Map (A) shows the entire area of the mission, Mission (B) briefs the pilot of the objectives, and Status (C) goes over the current situation of the mission. You can also assess your fuel and ammo supply.

REMEMBER TO FOLLOW YOUR MISSION OBJECTIVES!

Each campaign consists of several tasks assigned to you in order to clear it.

The next mission and the others that follow will have different tasks.

1. Monuments

Protect the historical landmarks from terrorist attacks.

2. Terrorist HQ

Seek out and destroy the government HQ seized by terrorists.

3. Car Bombs

Eliminate car bombs before they destroy the 5 U.S. embasies.

4. Agent Akbar

Find and rescue Sal, the undercover informant held captive.

5. Motorcade

Protect the President's motorcade from terrorist incidents.

6. Enemy Sniper

STAGE 1: WASHINGTON D.C.

The nation's capitol is under attack, with terrorists seizing all government agencies to use them as their headquarters. There are also snipers to kill and, of course the President's motorcade to protect.

The Washington Monument (1), Jefferson Memorial (2), and the Library of Congress (3) will be attacked by crazed terrorists and must be protected at all costs!

STAGE 2: SUB ATTACK

Drive a hovercraft in search of evil drug lords smuggling plutonium into a secluded group of islands. In addition to that, you must also rescue some NAVY SEALS taken hostage by the evil smugglers.

Ram the smugglers with the hovercraft on land or lay mines in the water for them to drive into and watch them explode into oblivion.

LATER STAGES OF THE GAME

There are a total of nine action-packed levels in the game, each covering different terrain such as rivers, cities, deserts, polar areas and, of course, rivers. Each level entails a variety of new missions and new enemy weapons like mobile radar tanks, Patriot missile launchers and drug-smuggling speed boats.

A FLY BALL TO FIRST BASE

As the crowd cheers and does the wave, your batter runs past home plate to score yet another run for your team! This is baseball at its best. What makes this sports cart different from other baseball games is that there are so many features that you can access besides just playing exhibition or a full season. There is an options menu that can change the type of game you play, the series type, the number of players (including the computer playing against itself), difficulty, music, password, and a new defense mode which allows a player to have the outfielders be controlled manually, automatically, or have the computer assist in the plays. Sports

This winners screen will appear when you complete a game.

You may even be awarded Most Valuable Player on your team!

TAKE THE GLADIATORIAL CHALLENGE!

ASSAULT

Run to each station and grab the weapon. You can only shoot it once before you run to the next station. Hit the Gladiator that is shooting at you to win.

JOUST

Using your jousting sticks, knock your opponent onto the platform.

Perform many crucial tactics with swift hits to the head, knee and chest areas.

THE WALL

Climb the wall using the hand holds provided.

You must be quick and agile, as the Gladiators in white are close behind to make you fall.

ATLASPHERE

In this human rolling ball, you must move onto the raised targets in the arena. Steam will come up and you will score a point in this challenging event.

POWERBALL

At each end of the court there is a bin with balls in it. Take them and race

to the nearest goal to secure a score. The Gladiators are waiting to block you.

ELIMINATOR

This is the ultimate test of skill! Run through an obstacle course that includes climbing, hand-to-hand bars, rope sliding and more!

AMERICAN GLADIATORS

Scoring well in each event will help keep you in the tournament.

CHALLENGE THE BEST!

Join the tournament with the American Gladiators and prove your might in these skillful games! Choose Tournament mode, or go Head-to-Head with a friend. You can make the choice of being a male or female player. This decides who will be your adversaries (the male or female Gladiators). Win the Assault, Joust, The Wall, Atlasphere and Powerball. GRADIUS

STAGE 1: THE STELLAR CLUSTER

Fiery comets and flame dragons haunt this deadly zone. Try to power up early on or you won't be able to progress very far. The boss is a phoenix that flings fireballs at you. It moves fast, but you move faster.

STAGE 2: CYBER SPACE COLONY

This place was once a space colony. Now, it is infested with slime-dripping aliens, and you must fight to the death! You will have to cut your way through their nest! The boss is a gigantic eyeball with humongous arms to attack with!

STAGE 3: FROZEN WASTELAND

Ice chunks float around in this perilous part of space. Remember that the crystals break into smaller pieces. The crystal mechsoss flails tentacles around the screen and shoots lasers at you. Keep your guard up.

STAGE 4: RETURN TO GRADIUS

This level is just like the first level in the original game! The intensity level here is high, as enemy shots fly out of every hole! The sheer mass of the attack is a force to be reckoned with. The boss is a giant laser-splitting machine!

THE BATTLE CONTINUES ONWARD...

Those weird heads from Easter Island are back, and they're heavily armed!

FURTHER INTO THE REACHES OF SPACE...

The later levels will heat up with more action than ever before. Your only hope of salvation is to power up your ship, and keep an eye out for stray bullets. Always listen to the voice that tells you the Boss's weak points. You will need this advice to progress into such strange areas like the many fields of Easter Island heads, to an all-out battle in space. Are you good enough to survive?

MOVE... TO THIS!

The ultimate team is here! The Dark Queen, licking her wounds from the last encounter, has built a giant laser cannon in space to destroy the earth! The Battleloads, naturally, take it upon themselves to destroy the menace. Yet this time, the fighting duo of Jimmy and Billy Lee want to join in, as the Queen has recruited some of the Dragons' enemies. You can play as either a Battleload, one of the Double Dragons, or in a two-player game where you can hit each other or one where you can't. See if the Ultimate Team has what it takes to defeat the Queen and her evil horde!

CRIME SCENE

LEVEL 1

Take to the city streets where ruthless thugs hang out just waiting for an unsuspecting victim to walk through their turf and be victimized.

F-2 MIKE'S CLUB

F-3 THE PARKING LOT

LEVEL 2

The fist-flying action continues into the lush and plush neighborhood shops of the super rich. More crazed gangs will pursue our hero, determined to beat him to a pulp.

Your fighting skills here must measure up to the new and tougher gang members that will come out. There are fire-breathing babes, roller-skating knifers, bat-swingers and bikers. That's not all! The boss will deliver fierce overhead blows and will throw his deadly hat when he thinks you're beating him.

FIGHT FAIR? SURE!

MY MOVES ARE TOO AWESOME FOR REAL FIGHTS!

Billy Lee takes his brawling experience with him to the Game Gear. Check out all his awesome fighting moves which can be used in some combinations!

BACK WITH MORE ATTACK!

Double Dragon, the hit arcade game, has now made it to the Game Gear featuring the deadly punch and kick attacks that have made it a classic among fighting game fans.

Control Billy through gang-infested areas such as the city streets, urban trains and even the countryside. Danger lurks everywhere so watch your back and fight off the enemies with your martial arts skills. When the going gets really tough, pick up a weapon or two.

Slip on your brass knuckles and unleash your Double Dragon!

reasons **NOT** to buy Tyrants™

10 Because I don't like lots of **action and violence**.

9 Because why should I waste my time arming my men with everything from bows and arrows to nuclear missiles and flying saucers when a **spitwad** is my weapon of choice?

8 Because I am a follower not a leader and I don't want to be the most **powerful** person in the world.

7 Because I don't like games that offer **months and months of game play**.

6 Because the idea of **traveling through time** and conquering nine worlds merely tires me out.

5 Because I do not have a **loin cloth fetish**. Really.

4 Because I prefer wimpy cartridges that don't have **4 megs of digitized speech**.

3 Because I don't like crossing swords with **devious, conniving opponents** all ready to step on my holy toes.

2 Because I prefer blowing \$59.99 on a cartridge that's all talk, hype and no **action**.

1 Because I am not worthy of an **adventurous resource management game** that makes other carts look like girly toys.

TTI and EGM team to sponsor Bomberman '93 Play Tour

Electronic Gaming Monthly and Turbo Technologies - makers of the Duo and the eminently popular Bomberman game - have announced plans for the Bomberman '93 Play Tour.

The tournament will kick off on the consumer day (June 6) of the 1993 Summer Consumer Electronics Show in Chicago. EGM readers are encouraged to participate.

After CES, the Play Tour will be held at major shopping malls in seven cities including Los Angeles, Chicago, New York, Dallas,

Philadelphia, San Francisco, and Boston.

The last Bomberman tournament, held at the Winter CES, was an unqualified success. The tourney generated a huge amount of excitement as players frantically watched the finalists go head to head on a big-screen television.

"We're very excited to bring the Bomberman '93 Play Tour to EGM readers," said Terry Tang of TTI.

Look in next month's EGM for more details on the soon to be famous Bomberman '93 Play Tour.

ANIMATION

Toon In, Toon On, or Drop In

Are you or do you know someone who gets up on the weekends according to a favorite cartoon, takes Bugs Bunny vitamins after eating Fruity Pebbles, and is more passionate about Tom and Jerry than Bill and AI?

If any of these tendencies ring a bell, read on. Located in Issaquah, Washington, a town just east of Seattle, the Whole Toon Access company houses a curious collection of cartoon creations. And you don't have to jump in your Mach 5 replica and

race to the Pacific northwest to see this toonish landmark.

Whole Toon Access publishes the Whole Toon Catalog. Printed twice a year, the catalog packs thousands of animated titles in its 90-plus pages.

The best thing about Whole Toon Access is its Dumbo-sized inventory. Enthusiasts can find all types of animation from mainstream Disney, to Japanese anime such as Akira, to classics like Felix the Cat and Dudley Do-Right, and even enigmatic titles like Clutch Cargo. "If it's animated, and we can get our hands on it, you'll find it listed in our catalog," said co-owner Bob Major.

Almost every title is available on VHS format, although a growing selection is available on laser disc. Besides the vast video

With all the neat stuff, the colorful Whole Toon Access showroom resembles something out of a Roger Rabbit cartoon.

selection, Whole Toon has more cool toys than Batman. Browsers will have trouble choosing between the now infamous Ren and Stimpy fared dolls, or Bullwinkle boxer shorts, or limited edition collectibles.

If you want to toon into Whole Toon, call them at (206) 391-6747.

Will Barcode Madness hit the U.S.?

Don't be surprised if you soon begin seeing kids rummaging through their parents' cupboards in search of...the ultimate warrior.

With the recently introduced Barcode Battler from Irwin, cryptic barcode information from almost any product is translated into energy points, attack factors, and defense ability. "Now when kids walk into a store, they are really walking into a castle, literally filled with thousands of warriors and weapons," said Irwin senior vice president Paul Griffith.

Kids battle each other by comparing the relative strength of their barcodes. Players can use superhero cards supplied by Irwin or create their own by cutting out barcodes from product packages and pasting them on blank cards included with their Barcode Battler. Irwin is also preparing cards featuring Marvel Comics heroes.

After the Barcode Battler's Japanese introduction two years ago, kids found that a particular soup brand had a super-powered bar code and the product quickly sold out.

The ingenious idea to convert the ever-present bar codes from more than four million different products was introduced in Japan two years ago. Its popularity almost triggered a noodle shortage.

TOYS

Lego has come a

long way since Ole Kirk Christensen first named his hand-painted wooden cars and animals Lego, a contraction that means "play well" in his native Denmark.

The earliest Lego brick entered the market in 1949. Since then, production has swelled to more than 11 million Lego bricks annually.

As Lego Systems, Inc. continues its growth, it has also become increasingly diverse.

Besides their staple product, Lego bricks, Lego Systems plans to open a number of Lego theme parks around the world. The company currently operates Legoland Park in Billund, Denmark.

The first park outside Denmark will open in 1996 in the United Kingdom near Windsor, and this year, the company will select a site for

the first U.S. park, which will open in 1998. The Lego company is currently looking at sites in Norton/Mansfield, Massachusetts; North Stonington, Connecticut; Prince William County, Virginia; and greater San Diego, California.

Besides theme parks, Lego Systems opened the Imagination Center at the sprawling Mall of America in Bloomington, Minnesota. The attraction showcases the creativity inherent in Lego toys,

but it is those highly versatile, brightly colored bricks that have made the Lego name famous worldwide.

Lego bricks are made of a high-quality, non-toxic plastic that will not lose its color over time. Two standard eight-stud bricks can be combined in 24 ways. Six eight-stud Lego bricks can be combined in nearly 103 million ways. More than ever before, Lego bricks can be combined to create more diverse models and fantastic worlds.

Their Ice Planet 2002 line,

for example, features six collectible models that combine space vehicles with arctic elements highlighted by the Deep Freeze Defender.

The Dragon Masters collection features a fire-breathing dragon in his den, a magician's workshop, and even an entire fortress.

Another intriguing product, the Skull's Eye Schooner contains more than 900 interlocking pieces and includes such details as cloth sails, two working pulley systems, and a compass that really turns.

All of the kits have Lego's well-known built-in flexibility.

Turok's Return Marks Valiant's Rise

Before hailing Valiant's re-introduction of Turok: Dinosaur Hunter, a brief history of this unique character is necessary.

Turok follows in the footsteps of two other popular Valiant titles, Magnus Robot Fighter and Solar. Like those two characters, Turok first appeared in Western Publishing Company comic books in the 1960's.

Magnus was the first Western character to resurface in the pages of a Valiant comic book roughly two years ago. Nearly four months later, Solar debuted.

But it is Turok who occupies a special place in comic book history.

"Turok has generated a great deal of interest in the Native American community," Jim Perham said. "When he first appeared in the Western Publishing comics as Turok: Son of Stone, he was really the only Native American in comics that was treated with respect."

Although many comics back then were considered hokey by today's standards, Turok stood apart. His roots could be traced to the Plains Indians of the 1880's.

John Hartz, vice president of marketing for Valiant, believes the Turok title and character stand for something special. "Turok holds a special place in the eyes of creative people in comics because they remember those great painted covers and the incredible line art of Alberto Giolitti," he said. Hartz asserts Turok is also

appealing because "it is so open to interpretation, creative teams can do an action/adventure story such as Turok vs. dinosaurs; or some kind of political story dealing with the plight of Native Americans; or even an ecological story on the impact of dinosaurs in today's environment."

From potential storylines like these, it's apparent

Turok has much more underlying substance than your typical comic book superhero.

"Turok is kind of like the Batman in that you can interpret him artlessly and through writing in a number of different ways, but he will always remain intrinsically Turok," said Hertz.

Despite his depth, Turok also has a very basic appeal

for comic fans. "You have cool elements, things we liked as kids: Indians and dinosaurs," said Hartz.

Turok #1 writer David Michelene pre-dates the storyline from Valiant's XO comics #14 and #15 where a nest of "bionosaurs" - dinosaurs pulled through time to 1992 and given a biotic implant - was destroyed by Turok and XO under Times Square in New York City. Turok #1 is set in 1987, with the first few issues filling in what happened during the last five years.

During this period, Turok has difficulty adjusting to not only the technology of the modern world, but also to the prejudices and injustices suffered by his people.

In issues #4, through #8, the storyline will follow Turok through his battles with the bionosaurs. It will also deal with issues confronting Native Americans in today's society.

Hartz expects sales of Turok to exceed one million, which will make it the best selling Valiant comic book ever.

To honor his return, Turok #1 is highlighted by a hybrid chromium and foil embossed cover. The brilliant drawing of Bart Sears and inking by Randy Elliot is embellished by a cover that is truly unique in an industry deluged with "special covers."

Last Action Hero Should be a Blast

With a number of mega-budget movies ready for summer, Arnold Schwarzenegger should be a big winner for his action-adventure-fantasy film that is a satire of his earlier work.

Sparked by an unprecedented advertising gimmick, the Last Action Hero has the potential to out-gross some of the actor's other cinematic juggernauts including Terminator and T2.

Furthermore, an unusual ad campaign should give Columbia Pictures, the film's distributor, a unique advantage when megapics including Jurassic Park, Cliffhanger, and Super Mario Bros. debut this summer.

NASA and a consortium of corporations sponsoring the first commercial space mis-

The Last Action Hero, with hype that includes even a rocket launch, will be one of the summer's blockbusters. Starring Arnold Schwarzenegger as Jack Slater, an otherwise invincible juggernaut, Slater's movie world is shaken up when an 11 year old boy is blasted out of his theater seat and into the movie.

on the main fuselage of the rocket and booster rockets as well as on the payload, which will orbit the earth for a minimum of two years conducting microgravity experiments.

The program also features a 900-number through AT&T (1-900-ROCKET). Callers can leave a message that will be sent into space. Also included is a sweepstakes in

marketing and distribution said, "Thematically, we think the ad is highly appropriate, in that both the main characters of the movie are transported from one world to another. We're also obviously excited about breaking new ground in the advertising world. And we're thrilled to help underwrite valuable commercial and

academic experiments that very likely will help improve the quality of our lives."

The Last Action Hero stars Schwarzenegger as Jack Slater, a movie hero that has never lost a battle on the big screen. But when an 11-year-old boy named Danny is magically transported into Slater's movie, the adventure begins.

Teamed with his favorite action hero, Danny gets to live out his wildest fantasies as he crashes cars, flies through windows, and takes on the bad guys in a movie world where anything and everything is possible.

Things get complicated when the movie villains escape to the real world and Slater and Danny must follow. But as Slater deals with the fact that he is a product of a Hollywood screenwriter and now finds himself in Danny's world, where punches hurt and a gun can spell death, he proves he's a true hero.

Columbia Pictures pulled off a marketing coup when NASA announced its bid was selected from dozens of consumer advertisers to be the first advertiser in space.

sion in U.S. history chose the film to be the first advertiser in space - a slot coveted by dozens of consumer advertisers.

Details of the program include: advertising exposure of the Last Action Hero

which two grand prize winners, together with Schwarzenegger, will push a button that launches the rocket into space.

COOL WORLD™

Illustrations shown are from the Super Nintendo screen of the game.

Let's imagine a world where cartoon characters called Doodles are alive. In this bizarre adventure, the Doodles are disturbing the balance between Cool World and Real World. If the balance isn't restored quickly, both worlds will be destroyed! Pit your wits against Doodles like Holli Would, Vegas Vinnie and Slash. They're out to get you—it's up to you to stop them and save the world!
